1.01 2-1-1 Partnership

Program:

Established by Executive Order in February 2006, the Nevada 2-1-1 Partnership was created to implement a multi-tiered response and information plan in the state of Nevada.

2-1-1 is an easy to remember telephone number that, where available, connects people with important community services and volunteer opportunities. Available information on essential health and human services includes: basic human services, physical and mental health resources, employment support services, programs for children, youth and families, support for seniors and persons with disabilities, volunteer opportunities and donations and support for community crisis and disaster recovery.

Hours of Service:

2-1-1 is currently available 24 hours per day, seven days per week. Service is provided by Help of Southern Nevada and Crisis Call Center in Northern Nevada.

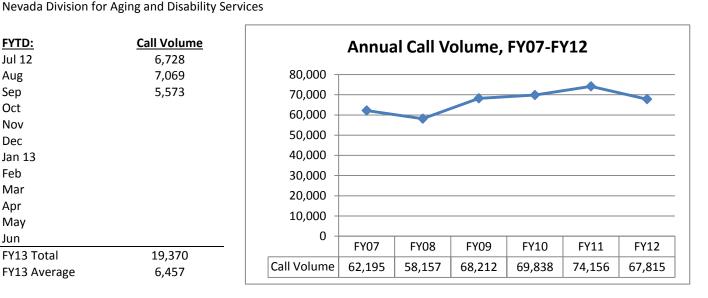

Partnership Members:

Crisis Call Center Family TIES of Nevada Governor's Office of Consumer Health Assistance **HELP of Southern Nevada** Nevada Dept. of Administration Nevada Dept. of Health and Human Services Nevada Dept. of Information and Technology Nevada Disability Advocacy and Law Center

Nevada Public Health Foundation State of Nevada Legislature United Way of Northern Nevada and the Sierra United Way of Southern Nevada Volunteer Center of Southern Nevada Washoe County Chronic Disease Coalition Washoe County Health District **Washoe County Senior Services**

FY13 Total	19,370

FY13 Average

*The FY12 call volume data includes disaster response calls from the following incidents:

6,457

- Nevada 2-1-1 played an essential role in the response to the Reno Air Races Disaster on September 16, 2011. Over 2,000 calls came in during the week following the disaster, resulting in 1,400 missing person's reports for approximately 650 missing individuals.
- Nevada 2-1-1 was activated as part of a Community Crisis Partnership with Washoe County during the Caughlin <u>Fire</u> on November 18, 2011. Over 1,500 calls were handled in 24 hours for this disaster.
- Nevada 2-1-1 was activated as part of the disaster response for the Washoe Drive Fire. Over 1,900 calls were handled for this disaster on January 19th, 2012.

Comments: Fluctuation in call volume due to outreach campaigns and media generated coverage. FY09 growth

impacted by economic recession. FY 10 data have been revised to remove "phantom calls" (hang-

ups, static, child playing, etc.) from the total number of calls.

Website: http://Nevada211.org

1.02 Office of Consumer Health Assistance

Program:

Established by the Nevada Legislature in 1999, GovCHA is a vital point of contact for healthcare consumers and providers in Nevada. The GovCHA mission is to provide the opportunity for all Nevadans to access information regarding patient rights and responsibilities, and to advocate for and educate consumers and injured workers concerning their rights and responsibilities under various health care plans and policies. This education and advocacy is provided to those who have insurance through an employer, managed care, individual health policies, ERISA, Worker's Compensation, Medicare, Medicaid, or are enrolled in other public health programs and/or discount medical plans. Assistance is also provided to the uninsured and underinsured. GovCHA collaborates routinely with state and federal agencies, and non-profit organizations to resolve consumer health care barriers and issues. GovCHA has expanded operations since its inception, and as of July, 2011 is now operating through the Director's Office of DHHS as the Governor's Office for Consumer Health Assistance, GovCHA serves as an umbrella agency for multiple consumer health related programs, including:

- Bureau for Hospital Patients
- External Review Organization
- Small Business Insurance Education Program
- RxHelp4NV
- Canadian Prescriptions
- Worker's Compensation Consumer Assistance
- Office of Minority Health
- Nevada 2-1-1
- Affordable Care Act Consumer Assistance Program
- Affordable Care Act Silver State Exchange Consumer Assistance

Service Area:

GovCHA operates statewide out of their main office in Las Vegas, with a satellite operation in Elko for Northern/rural Nevadans. The Office of Minority Health is based in the Las Vegas Office for Consumer Health Assistance.

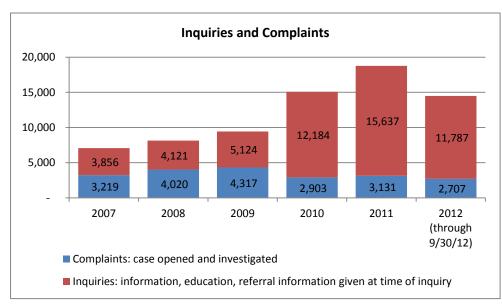

Hours:

GovCHA office hours are 8-5 Monday through Friday, inquiries are accepted after hours by voice mail and email, and are returned as soon as possible

Workload History:

GovCHA currently has ten full-time Ombudsmen managing caseloads of 90 to 300 each, each Ombudsman's case load varies by specialty.

Consumers Assisted:

Comments:

Full details of GovCHA' S programs, notable accomplishments, and history is published annually in our Executive Report, which is available on our website.

Website: www.govcha.nv.gov

1.03 Office of Minority Health

Program:

The Office of Minority Health (OMH) was established under NRS 232.467. The purpose of OMH is to improve the quality of health care services for members of minority groups, to increase access to health care services, to seek ways to provide education, address, treat and prevent diseases and conditions that are prevalent among minority populations, increase access to health care services, and disseminate information to and educate the public on matters concerning health care issues of interest to members of minority groups. AB519 placed the Office of Minority Health under the Office of Consumer Health Assistance within the Department of Health and Human Services, Director's Office. AB519 was approved by the Governor in June 2011.

OMH provides a central source of information concerning healthcare services and issues for racial and ethnic minorities. OMH researches, identifies, applies for, uses and monitors appropriate resources to support minority health services. Staff educates minority groups and the general public through conferences, trainings, and other forms of outreach. OMH engages in outreach activities and fosters partnerships with stakeholder groups including: community and faith-based organizations; schools and universities; medical centers, health care systems, and health departments; tribal, state, and federal government offices; policymakers and community residents; advisory committees and task forces; and corporations, foundations, and the media. OMH provides information regarding minority health care issues and helps ensure that both public and private entities have access to culturally competent and linguistically appropriate health information. OMH incorporates appropriate bilingual communication as needed. Passage of AB 519 in the 2011 Legislative Session moved OMH to the Office of Consumer Health Assistance (GovCHA) within the DHHS Director's Office. GovCHA has a designated Minority Health Ombudsman that advocates for the consumer regarding, billing disputes.

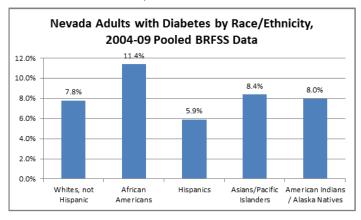

Funding:

In September 2010, Nevada was awarded a grant from the State Partnership Grant Program to Improve Minority Health. The grant award is for \$390,000, \$130,000 per year over a three year period from 9/1/2010 - 8/31/2013. OMH's proposed project associated with this grant focuses on diabetes and chronic disease and will fund activities centered on addressing diabetes related disparities and two leading risk factors, overweight and obesity. The grant fully funds the OMH Program Manager and a .50 FTE Administrative Assistant position, which were previously paid out of State General Funds.

Key Demographics:

1.04 Differential Response

Program:

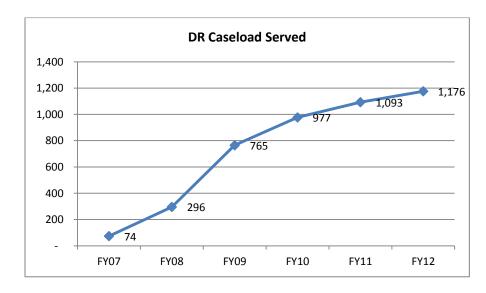

The Differential Response Program is a joint project between the Family Resource Centers and the three child welfare agencies. Reports of child maltreatment that meet the statutory threshold for a home visit to determine child well-being, where there is not an imminent threat to the child's safety, may be referred to the Differential Response staff for assessment and case management. Typically these reports involve such things as educational neglect, environmental neglect, medical neglect, and improper supervision. Frequently the Differential Response worker is able to assist the family in accessing services that will assist the family in providing positive interactions and a safe environment for their children.

Service Areas:

Services are provided in the following counties: Clark, Washoe, Elko, Carson City, Douglas, Storey, Churchill, Lyon, Mineral, Pershing and southern Nye.

Workload History:

Fiscal Year	Referred	Served	Closed
FY07	90	74	33
FY08	362	296	247
FY09	912	765	665
FY10	1,053	977	906
FY11	1,137	1,093	1,135
FY12	1,228	1,176	1,159
FY13 YTD	245	241	276

Comments:

The chart reflects ongoing caseload with additional programs coming on and ramping up their services. Reports screened for a DR response typically involved families with basic needs, followed by educational neglect, lack of supervision, medical neglect, and various family problems. Currently, DR referrals reflect approximately 9 percent of the child maltreatment reports in communities served. If expanded statewide, it is estimated that DR referrals could reach 17 percent of total child maltreatment reports. Nevada is one of 22 states implementing Differential Response.

Website:

http://dhhs.nv.gov/Grants/Committees/DR/DR%20Pilot%20Project%202007-02.doc

1.05 Grants Management Unit

Program:

The Grants Management Unit (GMU) is an administrative unit within the Department of Health and Human Services, Director's Office. It administers grants to local, regional, and statewide programs serving Nevadans. The Unit ensures accountability and provides technical assistance for the following programs.

- Children's Trust Fund (CTF) grants prevent child abuse and neglect.
- Community Service Block Grant (CSBG) promotes self-sufficiency, family stability, and community revitalization.
- Family Resource Centers (FRC) provide information and referral services, and various support services to families.
- Differential Response (DR) addresses child safety by supporting a partnership between child welfare agencies and designated FRCs.
- Fund for a Healthy Nevada (FHN) grants (1) improve the health and well-being of Nevada residents including programs that improve health services for children and (2) improve the health and well-being of persons with disabilities.
- Social Service Block Grant (SSBG-TXX) assists persons in achieving or maintaining self-sufficiency and/or prevents or remedies neglect, abuse, or exploitation of children and adults.
- Revolving Account for Problem Gambling Treatment and Prevention provides funding for problem gambling treatment, prevention, research and related services.

Eligibility:

Most GMU funding sources target at-risk populations. CTF focuses on primary and secondary prevention of child abuse and neglect. CSBG targets people at 125 percent of the Federal Poverty Level. FRC must conduct outreach to at-risk populations. Some FHN funds are targeted to people with disabilities.

Funding Categories with Priority Activities in FY13:

Children's Health – Access to Health Care; Immunization of Children; Oral Health; Suicide Prevention

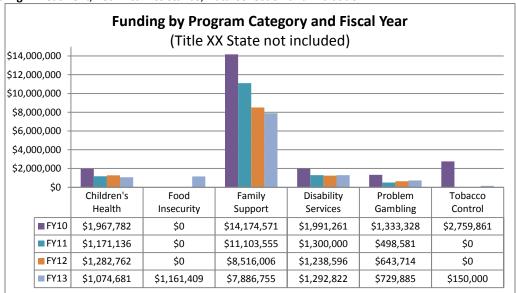

Family Support – Parent Training; Child Self-Protection Training; Crisis Intervention; Respite Care

Disability Services – Independent Living; Positive Behavior Support; Respite Care

All Nevadans - Basic Nutrition; Food Safety Network Capacity Building; Food Insecurity Strategic Planning

Tobacco Control - Nevada Tobacco Users' Helpline

Problem Gambling - Treatment; Technical Assistance; Data Collection and Evaluation.

Comments:

Beginning in FY13, the GMU added a new service category -- Food Insecurity. Programs and projects are intended to provide direct services to reduce hunger, build capacity within the food safety network, and maximize federal benefits. Funding is drawn from FHN All Nevadans (known as FHN Children's Health prior to FY13), FHN Disability and SSBG-Title XX. The addition of this service category reduces the amount of funds listed under Children's Health because \$565,401 of the FY2011 and FY2012 FHN Children's Health grants supported food projects.

Prior to FY11, GMU administered FHN programs intended to prevent, reduce, or treat the use of tobacco and the consequences of the use of tobacco. However, effective July 1, 2010, administration of these funds was transferred to the Health Division. No funds have been specifically allocated by the Legislature for tobacco control since FY10, but the GMU was able to award a small amount of otherwise unobligated FHN funds to the Health Division in FY13 to help sustain the Nevada Tobacco Users' Helpline.

Website: http://dhhs.nv.gov/Grants/GrantsManagement.htm

1.06 Head Start Collaboration and Early Childhood Systems Office

Program:

Through statewide partnerships, the Nevada Head Start Collaboration and Early Childhood Systems Office enhances relationships, builds systems, and promotes comprehensive quality services to meet the needs of young children and their families. The office is responsible for three federally funded programs each with its own funding source.

The Office does not regulate or oversee Head Start programs. The needs of grantees specific to collaboration with health and other service providers is assessed annually as required by the Head Start Act. A Partnership Committee convenes quarterly to discuss opportunities for increasing and improving services for low income children. Partnership Committee Members include representatives from the Nevada State Health Division, Division of Child and Family Services, Division of Welfare and Supportive Services, Child Care and Development, Nevada State Higher Education Institutions, Services for Homeless Children, State Department of Education, private non-profit organizations, and Head Start grantees including those providing services to children and families in tribal and migrant/seasonal programs.

Head Start and Early Head Start programs promote school readiness for economically disadvantaged children by enhancing their social and cognitive development through the provision of educational, health, nutritional, social and other services. Head Start programs serve children ages 3-5 and their families. Early Head Start programs serve pregnant women and children birth to 3 and their families. The federal Office of Head Start (OHS) provides grants directly to public and private agencies to operate both Head Start and Early Head Start programs in Nevada. Programs engage parents in their children's learning and support them in making progress toward their educational, literacy and employment goals. Significant emphasis is placed on the involvement of parents in the administration of local Head Start programs.

Eligibility:

Head Start programs primarily serve children and families living in poverty. However, up to 10% of children and families enrolled do not have to meet any income requirement. Minimally, 10% of each program's total enrollment must be comprised of children with diagnosed disabilities or special needs. Head Start programs in Nevada served more than 17% of children who have a disability or special need in FY2011. When the "Improving Head Start for School Readiness Act of 2007" was passed, programs were provided the flexibility to allow up to 35% of children living in families with incomes up to 130% of the federal poverty level, provided the program demonstrates that all eligible children living at or below the poverty level in the community had been given the opportunity for enrollment.

Other:

In July 2011, Governor Sandoval continued the Early Childhood Advisory Council by executive order. The Head Start Collaboration and Early Childhood Systems Office was appointed the coordinator of the Council's activities. Early Childhood Comprehensive Systems funding from the Health Resources and Services Administration and ARRA funding from the Administration of Children and Families support the work of the council. The first ever statewide assessment of the availability of quality early care and education is now complete and available on our website at

http://dhhs.nv.gov/HeadStart/Docs/AssessmentOfCenter-BasedQualityFinal.pdf. Under development is a plan for implementing a statewide early childhood data collection system and kindergarten entry assessment tool. Funding also supports a public awareness campaign and development and activities of local Early Childhood Advisory Councils.

Comments:

In fiscal year 2011, Head Start and Early Head Start programs in Nevada served 4,774 children and received more than \$25 million in Head Start funding that allowed just over 8% of Nevada's eligible children (those living in poverty or below) to receive the comprehensive early childhood development services provided by these programs. Over 300 of those children were homeless.

Head Start and Early Head Start grantees must provide a 20% match, which can be in cash or documented in-kind donations. Programs often struggle to meet this non-federal match requirement. During 2009, the State of Nevada spent over \$25,000 per inmate at a rural state prison. During that same year only a little over \$9,000 was spent per child enrolled in Head Start programs. As adults, those who were enrolled in Head Start are significantly less likely to have been charged with a crime than their siblings who did not participate in Head Start programs.

Website: http://dhhs.nv.gov/HeadStart.htm

1.07 Office of Health Information Technology

Program:

Nevada DHHS is responsible for leading the state's Health Information Technology (HIT) and electronic Health Information Exchange (HIE) efforts. By playing a significant role in the development and implementation of a statewide HIE system, DHHS can be sure the system will be cost-effective and sustainable, leverage investments already made by the health care community and the state, and meet established national standards. Meaningful use of HIE will be the foundation for improving the quality and efficiency of Nevada's health care system for all populations, as well as reducing medical errors.

The Health Information Technology for Economic and Clinical Health (HITECH) Act was enacted as part of the 2009 American Recovery and Reinvestment Act (ARRA) and authorized approximately \$36 billion in outlays over 6 years for HIT. It expands the role of states in fostering a technical infrastructure to facilitate intra-state, interstate and nationwide health information exchange (HIE). Better health care does not come from the adoption of technology itself. It is accomplished through the electronic exchange and use of health information for effective clinical decisions at the point of care.

The Office of Health Information Technology (OHIT) is responsible for administering the 4-yr. \$6,133,426 Nevada ARRA HITECH State HIE Cooperative Agreement awarded to DHHS. The funding must be used for facilitating the core infrastructure and capacity that will enable the electronic exchange of health information and coordinating related HIT/E initiatives, including state economic and workforce development. The State HIE Cooperative Agreement goes from February 8, 2010 through February 7, 2014.

Other:

As required by the grant, Nevada's State HIT Strategic and Operational Plan (State HIT Plan) was approved by federal HHS in May 2011. The plan's implementation is enabled and supported by NRS 439.581-595 (Senate Bill 43 passed in 2011).

Comments:

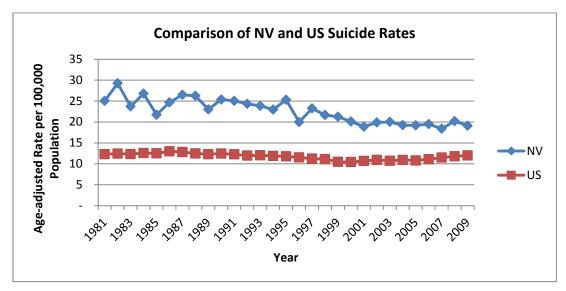

In September 2009, Governor Jim Gibbons issued an Executive Order establishing the Nevada HIT Blue Ribbon Task Force (HIT Task Force) to assist DHHS with the development of the State HIT Plan and to recommend legislative and policy actions. The Governor appointed a diverse group of 20 key stakeholders, which included representatives from Nevada Medicaid, health care systems and providers, public health, insurance, payers and employers, the Nevada System of Higher Education, pharmacy, medical records, legal, and consumers. From October 2009 through January 2011, the HIT Task Force met almost monthly, under Open Meeting Law, to provide feedback and recommendations which were incorporated into both the State HIT Plan and SB 43. By Executive Order, the HIT Task Force sunset on June 30, 2011, after successfully completing its mission. Per NRS 439.588, the Nevada Health Information Exchange (NHIE) Board of Directors was announced May 29, 2012, and the NHIE Board has been meeting regularly since August 21, 2012. The NHIE has been established as a Nevada domestic non-profit corporation, and is seeking federal 501(c)3 status. Phase 1 HIE capabilities is expected to be launched in November 2012. NV is one of 8 core member states of the federally-funded Western States Consortium for Interstate HIE, whose purpose is to facilitate the required electronic interstate exchange of patient health information.

Web site: http://dhhs.nv.gov/Hit.htm

1.08 Office of Suicide Prevention

Program

The Office of Suicide Prevention is the clearinghouse for suicide and suicide prevention information for State of Nevada. The Suicide Prevention Coordinator and the Training and Programs Assistant, located in Reno, and the Suicide Prevention Trainer and Networking Facilitator, located in Las Vegas, are responsible for the development, implementation and evaluation of the Nevada Suicide Prevention Plan (NSSP updated FY 2013). The NSSP is a comprehensive plan that encompasses the lifespan. A major initiative will follow up on the Veterans' Suicide Mortality Report and collaboration with the Veterans Services Green Zone Initiative to prevent suicide among service members, veterans and their families. Collaboration for suicide prevention is occurring in all regions of the state with strong partnership from local coalitions, school districts and the Nevada Coalition for Suicide Prevention. Some of our most successful initiatives with our partners have been with behavioral health screening in Washoe, Lyon and Douglas counties, text messaging crisis intervention, and Applied Suicide Intervention Skills trainings. OSP is working toward the establishment of a Suicide Fatality Review process. "Suicide Trends and Prevention in Nevada" http://cdclv.unlv.edu/healthnv_2012/suicide.pdf was released October, 2011 as a chapter in The Social Health of Nevada: Leading Indicators and Quality of Life in the Silver State, edited by Dmitri N. Shalin: UNLV: CDC Publications, 2012.

Comments/Facts about Suicide:

- Nevada has the 4th highest rate in the nation at 20.26/100,000 in 2010. Montana had the highest rate and New Jersey lowest.
- Nevada's rate increased in 2010, as did the national rate to 12.43/100,000.
- Suicide is the 7th leading cause of death for Nevadans and 10th leading cause of death for the US.
- Suicide is the 3rd leading cause of death for our youth age 15-24.
- Males make up 80 percent of suicide deaths.
- Nevada seniors over 70 have the highest suicide rate in the nation, over double the national average rate for the same age group.
- More Nevadans die by suicide than by homicide, HIV/AIDS or automobile accidents.
- Native American youth have a high rate of suicide.
- 73 percent of firearm fatalities are due to suicide. Firearms are used in 53% of all suicide fatalities.
- Average medical cost per suicide completion in Nevada: \$3,577.*
- Average work-loss cost per case: \$1,140,793.*

2.01 Advocate for Elders

Program:

The Aging and Disability Services Division (ADSD) Advocate for Elders program provides advocacy and assistance to frail, older adults and their family members to enable older adults to maintain their independence and make informed decisions.

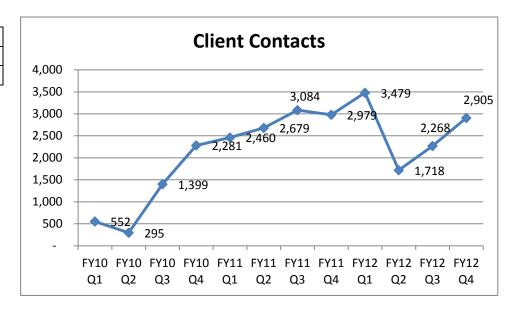

Eligibility:

Seniors age 60 or older, primarily homebound residing in communities throughout Nevada.

Workload History:

Fiscal Year	Client Contacts
FY11	11,202
FY12	10,370
FYTD:	
Jul 12	532
Aug	620
Sep	606
Oct	
Nov	

FY13 Total

1,758

FY13 Average

586

Other:

Jun

"Client contacts" include: phone calls, walk-ins, e-mail, postal mail, and contacts made on behalf of a client. Please note the program has 2.5 staff positions; one full-time Advocate for Elders in Northern Nevada, one in Southern Nevada, and a half-time position in Elko to serve Elko area seniors.

Funding Stream:

General Fund

Comment:

ADVOCATE FOR ELDERS: Historically, program contacts increase related to the Open Enrollment Period of the State Health Insurance Assistance Program (SHIP) which occurs during Quarter (Q)2 of each State Fiscal Year. Q1 FY12 resulted in more requests for assistance with an increase of 500 contacts from previous quarter. Q2 FY 12 down trend is due to 0.5 position Elko on extended medical leave and fulltime position in Reno - which was filled in December 2011 - FY 12 Q2. FY12 Q3 and Q4 show an upward trend due to all positions being filled. FY13 Q1 shows a decline due to one position being vacant during two of the three months in the quarter.

Web Link:

http://www.nvaging.net/advocate for elders.htm

2.02 Community Service Options Program for the Elderly (COPE)

Program:

The Aging and Disability Services Division (ADSD) Community Service Options Program for the Elderly (COPE) provides services to seniors to help them maintain independence in their own homes as an alternative to nursing home placement. COPE services can include the following non-medical services: Case Management, Homemaker, Adult Day Care, Adult Companion, Personal Emergency Response System, Chore and Respite.

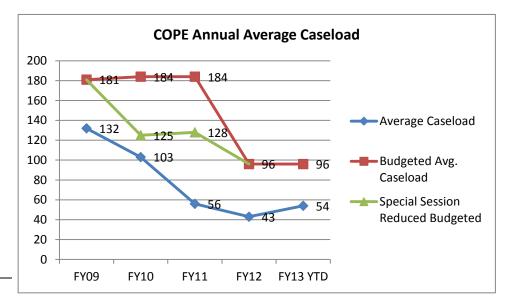

Eligibility:

Must be 65 years old or older; financially eligible (for 2013 income up to \$2,923; assets below \$10,000 for an individual and \$30,000 for a couple); at risk of nursing home placement without COPE services to keep them in their home and community. Priority given to those meeting criteria of NRS 426 – unable to bathe, toilet and feed self without assistance.

Workload History:

Fiscal Year	Average Caseload	Budgeted Avg.	Special Session	Average Waitlist	Total Expenditures
		Caseload	Reduced Budgeted

costs are not completed until several months after the closure of a quarter. Actuals will be updated

after the reconciliation of the quarter.

2.03 Elder Protective Services Program

Program:

Nevada Revised Statutes mandates that Aging and Disability Services Division receive and investigate reports of abuse, neglect, exploitation and isolation of older persons, defined as 60 years or older. The Elder Protective Services (EPS) program utilizes licensed social workers to investigate elder abuse reports. Social workers provide interventions to remedy abusive, neglectful and exploitive situations. The investigation commences within three working days of the report. EPS may contact local law enforcement or emergency responders for situations needing immediate intervention. The Crisis Call Center handles after-hour calls for EPS. EPS refers cases where a crime may have been committed to law enforcement agencies for criminal investigation and possible prosecution. Self-neglect is the single largest problem reported. EPS social workers provide training to various organizations regarding elder abuse and mandated reporting laws.

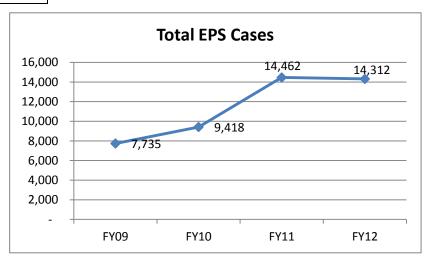

Eligibility:

Any older person, defined by NRS as 60 years or older, is eligible. EPS investigates elder abuse reports in all counties of Nevada in both community and long-term care settings.

Workload History:

Fiscal Year	Total Cases	Average Cases per Social Worker

TOTAL CASES - Total cases represent Total New Cases Received, Total Cases Investigated and Closed and Cases Carried Over from the Previous Months. The Average Cases per Social Worker represents the Total Cases divided by the Actual number of Social Workers. As of July 1, 2010, ADSD assumed full responsibility for all elder abuse investigations in Clark County making ADSD and law enforcement agencies the sole responders to reports of elder abuse statewide.

Web Link: http://www.nvaging.net/protective-svc.htm

2.04 Homemaker Program

Program: The Agin

The Aging and Disability Services Division (ADSD) Homemaker Program provides in-home supportive services for seniors and persons with disabilities who require assistance with activities such as housekeeping, shopping, errands, meal preparation and laundry to prevent or delay placement in a long-term care facility.

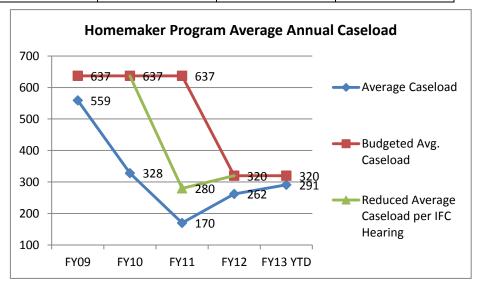

Eligibility:

Seniors and person with disabilities throughout Nevada in need of supportive services; financially eligible (110 percent of Federal Poverty income below \$998.80 monthly).

Workload History:

Comment: Expenditure totals for FY 2013 will appear low until reconciliation of direct services and administrative

costs are completed. These amounts are not reconciled until several months after the closure of a

quarter.

2.05 Independent Living Grants

Program:

Independent Living Grants (ILG): The Nevada State Legislature passed legislation in 1999, which enacted the Governor's plan for utilizing part of Nevada's proceeds from the Master Tobacco Settlement to support "independent living" among Nevada seniors. This program funds a number of vital services for seniors, such as respite care, transportation and supportive services. Supportive services includes: adult day care; case management; case management for Elder Protective Services; caregiver support services; information, assistance and advocacy; companion services; durable medical equipment and healthcare products; geriatric health and wellness; homemaker services; home services; legal services; medical nutrition therapy; volunteer care; emergency food pantry; Personal Emergency Response System (PERS); protective services; and representative payee.

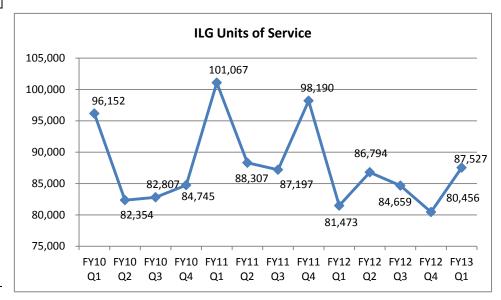

Eligibility:

Seniors throughout Nevada, age 60 or older, in need of assistance to live independently.

Workload History:

FY13 Total FY13 Average 87,527 27,782

Funding Stream:

Healthy Nevada Fund from the Tobacco Settlement Fund

Web Link:

http://www.nvaging.net/grants/grants main.htm

Comment:

A decline in Q1 FY12 is due to reduction in programs funded, as a result of reduced funding for Independent Living Grants. For FY12 Q3 and Q4, the trend is generally stable with expected program fluctuations. One year can differ from another for clients served due to the types of programs funded and the movement of programs between OAA Title III-B and Independent Living Grant funding. For FY13 Q1, the trend shows a slight increase due to a change in funded services between funding sources.

2.06 Long Term Care Ombudsman Program (Elder Rights Advocates)

Program:

The Long Term Care (LTC) Ombudsman program is authorized by the federal Older American's Act. The Act requires that a statewide Ombudsman program investigate and resolve complaints made by or on behalf of older individuals who are residents of long term care facilities. The Act also requires numerous activities related to the promotion of quality care in LTC facilities. Elder Rights Advocates, also known as Ombudsmen, provide residents with regular and timely access to Ombudsman services by conducting routine visits to assigned facilities. They advocate for residents and provide information regarding services to assist residents in protecting their health, safety, welfare and rights. The Ombudsman Program is comprised of two basic components – a "case" or an "activity". A Case includes the investigation and resolution of particular complaints made by or on behalf of residents. Activities include duties such as consultation and training for facility staff, working with resident and family councils, participating in facility surveys, etc.

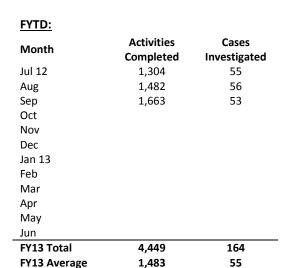

Eligibility:

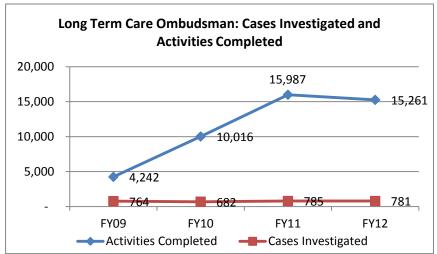

Eligibility includes every older person, aged 60 years or older, living in a long term care facility including:

- Homes for Individual Residential Care
- Residential Facilities for Groups including Assisted Living Facilities
- Skilled Nursing Facilities
- Nursing Facilities (including Intermediate Care Facilities)

Workload History:

Fiscal Year	Activities Completed	Cases Investigated
FY11	15,987	785
FY12	15,261	781
FY13 YTD	4.449	164

Funding Stream:

TITLE III - Older Americans Act Funds through the Administration on Aging; TITLE VII - Older Americans Act Funds through the Administration on Aging; Medicaid Funds through the Division of Health Care Financing and Policy; General Fund

Web Link:

http://www.nvaging.net/ltc.htm

Comment:

The change in the work history is expected. The Ombudsman program was restructured in 2008 to better comply with federal and state regulations related to Elder Abuse investigations. The manner in which the program obtained the majority of its cases from long term care facilities no longer exists as the facilities are no longer required to report non-complaint related resident events. At the same time, an unexpected decrease in funding occurred when Centers for Medicare and Medicaid Services (CMS) denied Medicaid billing for the Ombudsman program. Please contact Jill Berntson at (775) 687-0534 or iberntson@adsd.nv.gov for more information.

2.07 Older Americans Act Title III-B

Program:

Services are intended to maximize the informal support provided to older Americans, to enable them to remain living independently in their homes and communities. Services funded under Title III-B include: senior companion; transportation; adult day care; homemaker; information, assistance and advocacy; representative payee; caregiver support, education and training; legal services; telephone reassurance; volunteer services; Personal Emergency Response System (PERS); case management; respite; and transitional housing.

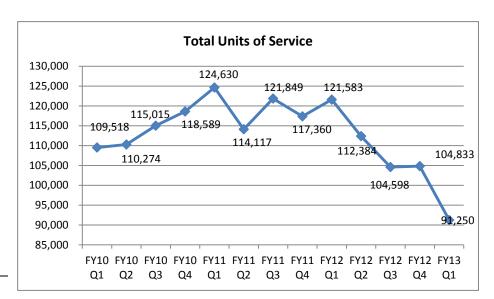

Eligibility:

Individuals throughout Nevada age 60 or older with particular attention to low-income older individuals, including low-income minority individuals, older individuals with limited English proficiency, and older individuals residing in rural areas.

Funding Stream: Title III - Older Americans Act (OAA) Funds through the Administration on Aging (AoA); General Fund

Web Link: http://www.nvaging.net/grants/grants main.htm

Comment:

FY11 Q2, the slight dip in service recipients is due to new grant year, starting July 1, and a shift in the types of services funded. The trend reflects normal fluctuation at close of grant year when service funds diminish. For FY 2012 Q2, a downward trend is caused by several programs reporting fewer services delivered. Almost half of funded programs reported a decline of greater than 10% from the previous month. The cause for the decline is being explored. For FY13 Q1, the trend shows a slight dip due to a change in funded services between funding sources.

2.08 Older Americans Act Title III-C (1)

Program: Funds under Title III-C1 are allocated to provide meals to seniors in congregate settings, usually at

senior centers.

Eligibility: Individuals age 60 or older and their spouses; individuals with disabilities who have not attained the age

of 60, but reside in housing facilities occupied primarily by older individuals at which a congregate meal site has been established; individuals providing essential volunteer service during meal hours at a congregate setting; adults with disabilities who reside at home with an eligible older individual, who

come into the congregate setting without that individual.

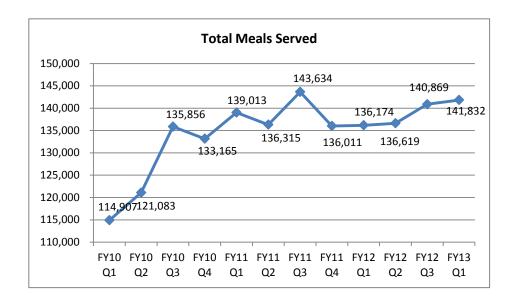

Workload History:

Web Link: http://www.nvaging.net/grants/serv specs/nutrition.htm

Comment: Meals Served graph - Numbers are reflected for State Fiscal Year and represent the number of meals

served to participants of the program. Meal count trends are expected to increase due to Nevada's economic decline. Additionally, meal service can decline in Q4 and Q1, during summer months, due to return of "snow bird" seniors returning to northern climates during these warmer months. For FY 2013,

the Q1 trend is stable.

2.09 Older Americans Act Title III-C (2)

Program: Title III-C2 funds are allocated to furnish meals to homebound seniors, who are too ill or frail to attend

a congregate meal site.

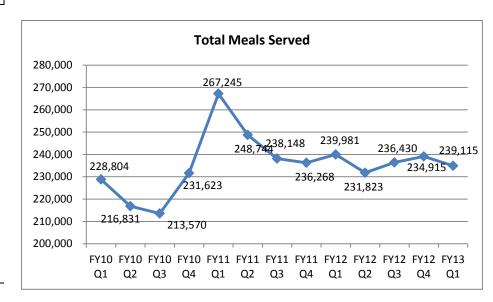

Eligibility: Individuals age 60 or older and their spouses and disabled individuals, who reside with individuals over

age 60.

Web Link: http://www.nvaging.net/grants/serv specs/nutrition.htm

Comment: Meals Served graph - Numbers are reflected for State Fiscal Year and represent the number of meals

served to participants of the program. Overall, comparing each quarter with the previous year's quarter, the number of meals served has slightly increased. The slight increase is a result of the slowing economic conditions nationwide and in Nevada. The overall trend is stable. For Q1, FY 2013, the trend

is stable.

2.10 Older Americans Act Title III-E

Program: The Older American Act program addresses the needs of family caregivers by increasing the availability

and efficiency of caregiver support services and of long-term care planning resources.

Eligibility: Family caregivers of adults age 60 or older; grandparents and caregivers, age 55 or older, of children

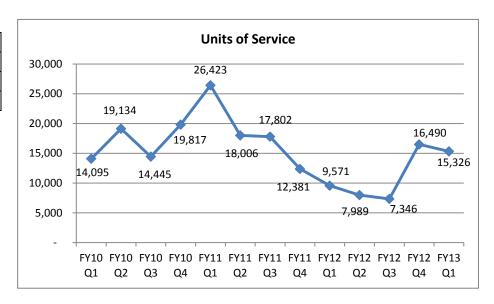

not more than 18 years of age, who are related by blood, marriage or adoption; parents, age 55 years

or older, caring for an adult child with a disability.

Currently, 6,373 individuals are enrolled in the program as active participants. The Chart depicts the total number of books sold each quarter per state fiscal year. The number of books available for sale is limited by the amount of funding received from the Nevada Taxicab Authority. The Legislatively Approved Tier changes with income eligibility requirements were implemented October 1, 2012.

Funding Stream: Nevada Taxicab Authority

Web Link: http://www.nvaging.net/taxiassistanceprogram.htm

<u>Comment:</u> This program typically has its highest coupon book sales during Q1 and Q4 of each fiscal, which are also

the warmest months in Clark County. The current trend for Q1 FY 2013 has a slightly lower trend in September due to clients' self-withdrawal from the program, due to anticipation of income verification

for eligibility, which was actually instituted October 1, 2012.

2.12 Senior Rx and Disability Rx

Program: Nevada Senior Rx and Disability Rx assist eligible applicants to obtain essential prescription

medications. Members who are not eligible for Medicare pay \$10 for generic drugs and \$25 for brand drugs. Members who are eligible for Medicare receive help with the monthly premium for their Part D

plan and may use the program as a secondary payer during the Medicare Part D coverage gap.

Eligibility: Residency -- Continuous Nevada resident for the 12 months prior to application. Annual Household

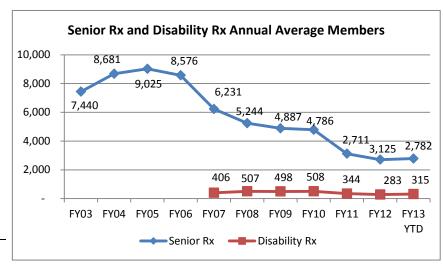

Income Limit -- Effective 7/1/2012 = \$26,836 for singles, \$35,773 for couples. Age -- For Senior Rx, age

62 or older. For Disability Rx, age 18 through 61 with a verifiable disability.

Workload History:

2,782

315

2.13 State Health Insurance Assistance Program (SHIP)

Program:

Provides information, counseling, and assistance services to Medicare beneficiaries, their families and others. These services are provided relevant to: Medicare Part D Prescription Drug Coverage; Medicare Part A; Medicare Part B; Medicare supplemental insurance; long-term care insurance; Medicare Advantage; Extra Help Part D drug program; beneficiary rights and grievance appeal procedures. Referrals to other community resources are made as needed.

Eligibility:

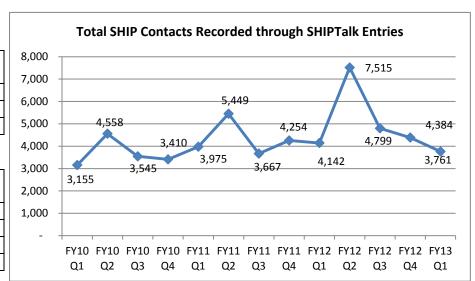

Medicare eligible Seniors age 65 or older and/or disabled persons of any age.

Workload History:

	Total SHIP	Monthly
	Contacts	Average
FY 10	14,668	3,667
FY 11	17,345	4,336
FY 12	20,840	5,210

FYTD:

<u> </u>		
	Total SHIP	Monthly
	Contacts	Average
Q1 13	3,761	1,254
Q2 13		
Q3 13		
Q4 13		

Other:

SHIP utilizes trained volunteers for outreach and communication. Services are advertised through outreach events, websites, referrals and training. Medicare beneficiaries call a statewide, toll-free phone number and are referred to a trained volunteer to assist with questions to help solve problems. SHIP contacts/encounters are entered into the Centers for Medicare and Medicaid Services (CMS) database and reported periodically as required to CMS.

Funding Stream:

The Centers for Medicare and Medicaid Services (CMS) and ILG State Funds

Web Links:

http://www.nvaging.net/ship/ship_main.htm

Analysis of Trends: Due to complexities associated with Medicare assistance, counseling sessions are more time consuming and involved in case management, and require providing beneficiaries with a number of referrals and assistance with Medicare needs. Volunteers are reluctant to do counseling because of the complexity of the job and the time commitment for training and counseling. At the start of the 2009-10 Grant Year (April 2009), SHIP had 75 volunteers statewide. As of June 30, 2012, there are 45 volunteers statewide, 32 of whom are CMS Certified Counselors.

2.14 Waiver - Assisted Living

Program:

The Aging and Disability Services Division (ADSD) Assisted Living (AL) waiver maximizes the independence of Nevada's frail elderly by providing assisted living supportive services to eligible individuals in a residential facility that offers 24-hour supervised care, individual living units, a kitchenette, sleeping area or bedroom, and contains private toilet facilities. Waiver services include: Case Management to assist with gaining access to needed waiver and other State Plan services as well as needed medical, social, educational, and other services, regardless of funding sources; and augmented personal care services which include assistance and supervision with the activities of daily living such as mobility, bathing, dressing, oral hygiene, toileting, transferring, ambulating, feeding, medication oversight (to extent permitted under State law).

Eligibility:

Must be 65 years old or older; financially eligible (300 percent of SSI income up to \$2,094); at risk of nursing home placement within 30 days. Must also meet low income tax credit housing requirements.

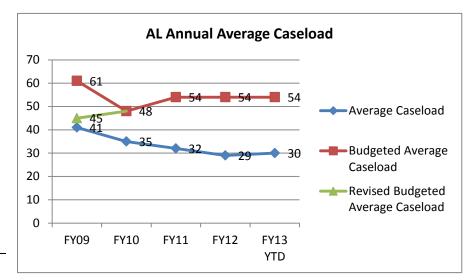

Workload History:

Fiscal Year	Average Caseload	Budgeted Avg. Caseload	Average Waitlist	Total Expenditures
FY10	35	48	0	\$139,157
FY11	32	54	0	\$114,212
FY12	29	54	2	\$136,602
FY13 YTD	30	54	2	\$4,879

Actual expenditures are projected for FY 13, as the reconciliation of direct services and administrative costs are not completed until several months after the closure of a quarter. Actual expenditures will be updated after the reconciliation of the quarter and the Medicaid Administrative billing is completed.

2.15 Waiver - Home and Community Based (formerly CHIP)

Program:

The Aging and Disability Services Division (ADSD) Home and Community Based Waiver (HCBW) provides waiver services to seniors to help them maintain independence in their own homes as an alternative to nursing home placement. CHIP services can include the following: Case Management, Homemaker, Adult Day Care, Adult Companion, Personal Emergency Response System, Chore, Respite, and Nutrition Therapy and access to State Plan personal care services.

Eligibility:

Must be 65 years old or older; at risk of nursing home placement within 30 days without services; financially eligible (300 percent of SSI income up to \$2,094); need assistance with one or more of the following: bathing, dressing, eating, toileting, ambulating, transferring.

2.16 Waiver for the Elderly in Adult Residential Care

Program:

The Aging and Disability Services Division (ADSD) Waiver for the Elderly in Adult Residential Care (WEARC) is offered to seniors to maximize independence by providing supervised care in a residential facility for groups as a less expensive alternative to nursing home placement. WEARC services include: Case Management to assist with gaining access to needed waiver and other State Plan services as well as needed medical, social, educational, and other services, regardless of funding sources; Attendant Care services are provided by the group home and can include bathing, dressing, transferring, walking, oral care, feeding, toileting, and transportation.

Eligibility:

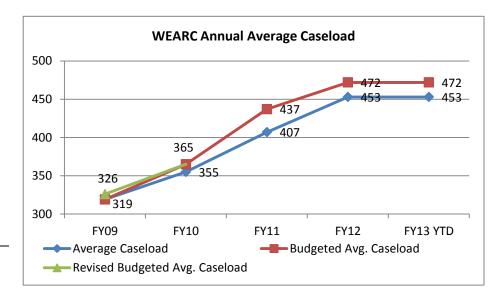

Must be 65 years old or older; financially eligible (300 percent of SSI income up to \$2,094); at risk of nursing home placement within 30 days without services and in need of a more integrated and supervised environment.

Workload History:

2.17 Disability Services - Assistive Technology for Independent Living

Program:

The Assistive Technology for Independent Living (AT/IL) Program helps individuals to remain living in the community by making their homes and vehicles more accessible. Some clients share in the cost, on a sliding scale. The program provides one-time services that are not provided on an ongoing basis.

Eligibility:

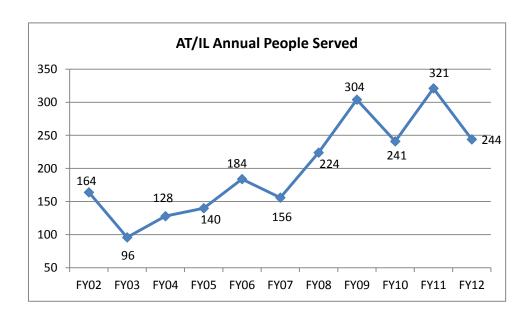

Applicant must have a severe disability that results in significant limitation in their ability to perform functions of daily living, and there must be an expectation that services will help to improve or maintain their independence.

Workload History:

	Applications	Cases Closed	Expenditures
FY 10	292	241	\$1,895,972

FY13 Average

The average household income of program applicants is \$1,622 per month with an average household size of 1.8 people. The median age of those served is 61. The most commonly provided services are home and vehicle modifications that provide wheelchair access.

Funding for this program is provided through a Federal and State partnership. It is a "resource of last resort," meaning that applicants must exhaust other public and private resources before receiving assistance. The program helps Nevadans to avoid institutional placement and to leverage care and other resources available from family and friends.

Web Links:

http://dhhs.nv.gov/ODS Programs AssistiveTech-IndependentLiving.htm

2.18 Disability Services - Personal Assistance Services

Program:

This program provides in-home assistance with daily tasks like bathing, toileting and eating. Service recipients share in the cost of their services, based upon a sliding scale formula. Services are typically provided on an ongoing basis, however some applicants have terminal conditions and are only assisted for short-term periods.

Eligibility:

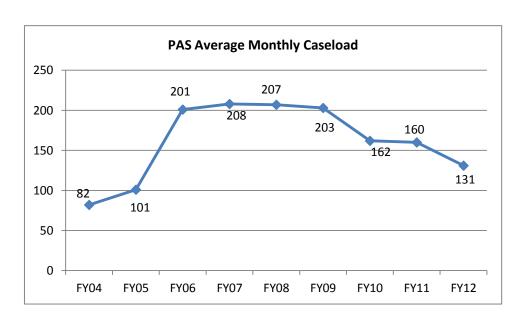

Applicants must be over age 18, have a severe physical disability, and must have all their care needs addressed when the resources of this program are combined with other resources available to the applicant (family, friends, assistive technology, private-pay care, etc.).

Workload History:

	Applications	Cases Closed	Expenditures
FY 10	101	64	\$3,239,720

This program is impacted by the US Supreme Court's Olmstead Decision. Thus, the targeted maximum waiting time is 90 days. The average monthly household income for program recipients is 230 percent of the federal poverty level and the median age is 67.

Funding for this program is provided entirely through the State general fund. This program is a "resource of last resort," meaning that applicants must exhaust other sources of PAS, before receiving assistance. The program helps Nevadans to avoid institutional placement and to leverage care and other resources available from family and friends.

http://dhhs.nv.gov/ODS_Programs_PersonalAssistanceService.htm

2.19 Disability Services - Traumatic Brain Injury Services

Program:

The Traumatic Brain Injury Program provides one-time rehabilitation services that enable recipients to gain or maintain a level of independence, by re-learning how to walk, talk and conduct other routine activities. After a person is injured, there is a short window of opportunity in which they can be effectively rehabilitated.

Eligibility:

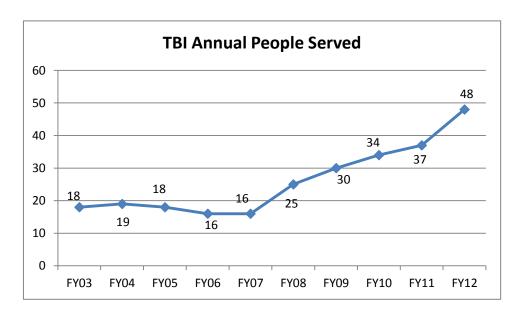

Applicants are generally between age 18 and 50, must have a recent brain injury, and must present as a good candidate for successful rehabilitation.

Workload History:

	Applications	Cases Closed	Expenditures
FY 09	37	30	\$1,037,702
FY 10	53	34	\$1,529,594
FY 11	75	40	\$1,537,839

FY13 Average

This program has consistently met its 90-day waiting time target under the US Supreme Court's Olmstead Decision. Traumatic Brain Injury is six times more common than breast cancer, HIV/AIDS, spinal cord injuries and Multiple Sclerosis combined.

Funding:

Funding for this program is provided entirely through the State general fund. This program is a "resource of last resort," meaning that applicants must exhaust other sources of funding before receiving assistance. The program helps Nevadans to avoid institutional placement and to leverage care and other resources available from family and friends. The number of applications shown is for those applicants who meet the program's criteria for having maximum rehabilitation potential.

Web Links:

http://dhhs.nv.gov/ODS_Programs_TraumaticBrainInjuryRehab.htm

2.19 Disability Services - Autism Treatment Assistance Program (ATAP)

Program:

The Autism Treatment Assistance Program helps families of children ages 0-18, with Autism Spectrum Disorders, to establish and fund home-based therapy programs. Funds are used to pay clinical professionals who design the therapy programs and train lay-providers to deliver the therapy, as well as to pay the lay-providers for the delivery of services.

Eligibility:

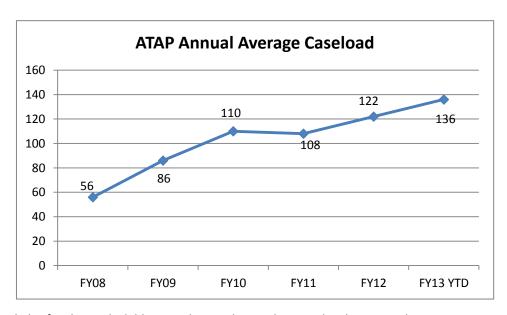

Recipients must be under age 18 and have a documented diagnosis of an Autism Spectrum Disorder. Applicants are prioritized based upon a number of factors relating to their need and opportunities for successful therapy.

Workload History:

	Applications	Cases Closed	Expenditures
FY 10	N/A	N/A	\$1,147,741

Other:

FY13 Average

This program helps families with children aged 0-18 who are diagnosed with autism. The program currently consists of 78 percent male, 22 percent female children with an average age of six.

Funding:

Funding for this program was provided entirely through the state general fund during FY 07-12, but transferred to the Fund for a Healthy Nevada in FY 13.

Web Links:

http://dhhs.nv.gov/ODS Programs ATAP.htm

3.01 Adoption Subsidies

Program:

It is the policy of the agencies providing child welfare services to provide financial, medical, and social services assistance to adoptive parents, thereby encouraging and supporting the adoption of special-needs children from foster care. A statewide collaborative policy outlines the special-needs eligibility criteria, application process, types of assistance available and the necessary elements of a subsidized adoption agreement.

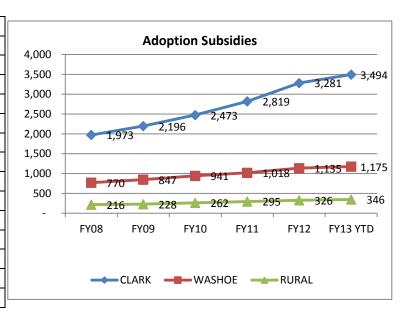

Eligibility:

To qualify for assistance, the child must be in the custody of an agency which provides child welfare services, or a Nevada licensed child-placing agency, and an effort must have been made to locate an appropriate adoptive home which could adopt the child without subsidy assistance. The child must also have specific factor(s) or condition(s) that make locating an adoptive placement resource difficult without recruitment, special services, or adoption assistance; such as being over the age of five, having siblings with whom they need to be placed, or having a physical, mental or behavioral condition that results in the need for treatment.

Other:

All three public child welfare agencies, Clark County Department of Family Services (CCDFS); Washoe County Department of Social Services (WCDSS); and the Division of Child and Family Services (DCFS) Rural Region, administer the subsidy program with state oversight and in accordance with statewide policy.

3.02 Child Protective Services (CPS)

Program:

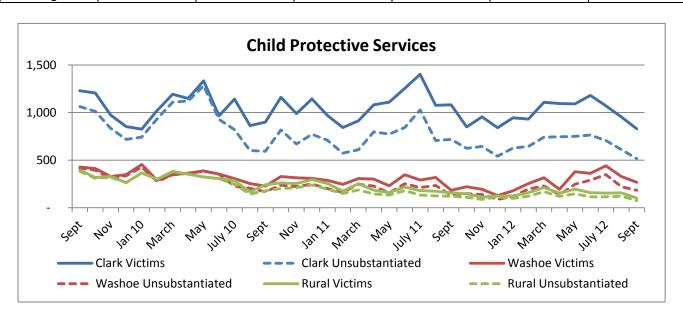

CPS agencies respond to reports of abuse or neglect of children under the age of eighteen. Abuse or neglect complaints are defined in statute, and include mental injury, physical injury, sexual abuse and exploitation, negligent treatment or maltreatment, and excessive corporal punishment. The CPS worker and family develop a plan to address any problems identified through assessment. Families may be referred to community-based services to prevent their entry into the child welfare system.

Administration:

Division of Child and Family Services (DCFS) Family Program's Office has oversight responsibility to monitor compliance with federal/state requirements and provide technical assistance as needed. Federal funding is administered through DCFS to child welfare programs in Clark and Washoe Counties. Rural programs are administered directly by DCFS.

3.03 Early Childhood Services

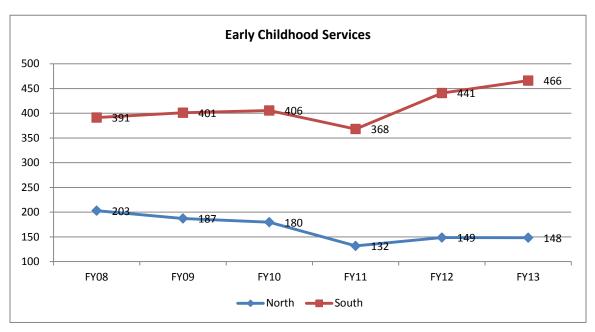

Program:

Early Childhood Mental Health Services are available for eligible children from birth to 6 years of age who have significant emotional, mental health, or behavior problems or those who are at high risk for these problems and associated developmental delays. The goal is to strengthen the parent-child relationship, support the family's capacity to care for the child, and to enhance the child's social and emotional wellbeing. Northern Nevada Child and Adolescent Services is located in Washoe County, and Southern Nevada Child and Adolescent Services is located in Clark County.

Eligibility: Birth through age six.

Other: Serves children who are covered under fee-for-service Medicaid, HMO Medicaid, or Nevada CheckUp, and children who are uninsured or underinsured.

3.04 Foster Care - Out-of-Home Placements

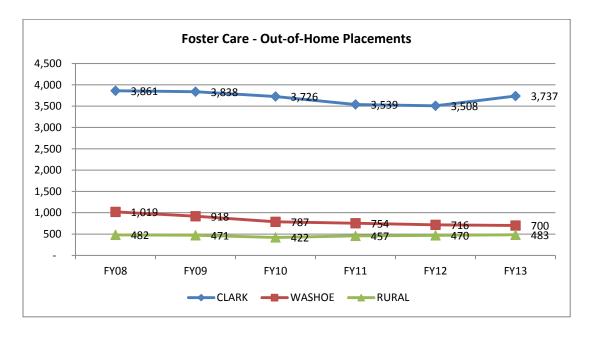

Program:

Foster Care services are provided as temporary placement for children who are removed from the home to protect them from harm or risk. Needs assessments are conducted and a caseworker arranges care and services for the child, and also provides counseling to the child, biological parents, and the foster/substitute care provider. Permanency plans developed with the district court may include reunification, kinship placement, adoption or other planned permanent living arrangements.

Administration:

The role and function of the Social Services Program Specialists assigned to Foster Care is to provide statewide oversight to the three child welfare jurisdictions in Nevada to ensure compliance with federal and state regulations, statutes and policy. The Foster Care Specialist is also responsible for providing technical assistance to the jurisdictions, fielding questions from the public regarding foster care, and engaging in quality assurance monitoring and quality improvement activities to ensure that children in foster care are safe and stable in their placements.

3.05 Foster Care - Independent Living

Program:

The Nevada Independent Living Program is designed to assist and prepare foster and former foster youth in making the transition from foster care to adulthood by providing opportunities to obtain life skills for self-sufficiency and independence. The Independent Living Program does this by offering many learning and training opportunities along with financial assistance. The three major sources of funding to assist foster youth in care and those that have aged out of the foster care system come from the federal and state government.

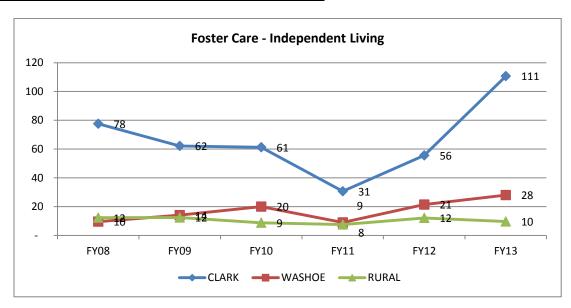

Eligibility:

Services are available to youth aged 15 and above who are currently in foster care and to former foster youth who have aged out of the foster care system at age 18. Youth who were adopted from foster care on or after their 16th birthday are also eligible for services. Those who aged out of care may continue receiving services to age 21, including those who came to Nevada from another state.

Other:

Supplemental financial assistance is provided through the Fund to Assist Former Foster Youth (FAFFY). These funds provide assistance with household goods, job training, housing assistance, case management and medical insurance. Assistance is available up to age 21.

3.07 Juvenile Justice - Youth Parole

Program:

The Nevada Youth Parole Bureau has offices in Las Vegas, Reno, Carson City, Fallon and Elko. The staff is committed to public safety, community supervision and services to youth returning home from juvenile correctional facilities. All youth parole counselors have been trained and certified as peace officers and act in accordance in the performance of their duties. Working closely with families, schools and the community, parole counselors help each youth maintain lawful behavior and encourage positive achievement. The Bureau also supervises all youth released by other states for juvenile parole in the State of Nevada pursuant to interstate compact.

Eligibility: Males and females; Felony and misdemeanor adjudications. Ages 12-21.

3.08 Children's Clinical Services

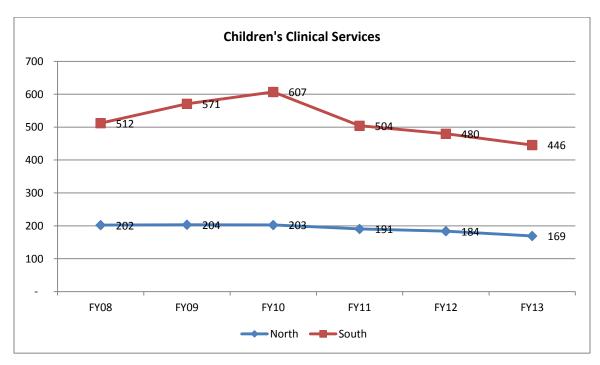

Program:

Outpatient therapy services are available for eligible children and adolescents who have significant emotional, mental health, or behavior problems. These services work with children and their families to reduce challenging behaviors, increase emotional and behavioral skills, improve functioning at home, in school and in the community, and strengthen the parent-child relationship while supporting the family's capacity to care for their child's needs. Northern Nevada Child and Adolescent Services is located in Washoe County, and Southern Nevada Child and Adolescent Services is located in Clark County.

Eligibility: Six to 18 years of age.

Other: Serves children who are covered under fee-for-service Medicaid, HMO Medicaid, or Nevada CheckUp, and children who are uninsured or underinsured.

3.09 Residential Treatment Services

Program:

Treatment Home services work in the context of family and community life with children and adolescents whose emotional, mental health, and behavioral needs cannot be met in their own families and who require a higher level of mental health intervention in an out of home setting. Inpatient acute hospital care provides services for eligible children and adolescents ages 6 to 18 years who are at immediate risk of harm to themselves or others due to an emotional crisis and Residential Treatment center care for eligible children and adolescents from age 12 to 18 years with treatment needs that require extended 24 hour secure care. Northern Nevada Child & Adolescent Services is located in Washoe County, and Southern Nevada Child & Adolescent Services is located in Clark County.

Eligibility:

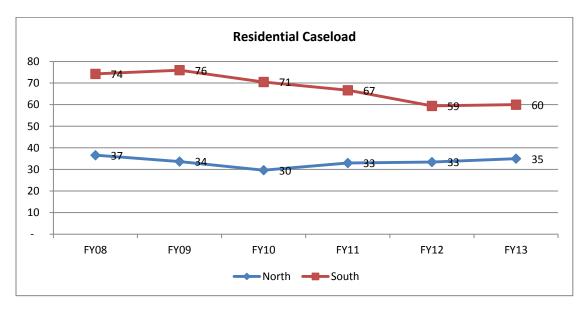

North: Ages 6 to 18 are served through Family Learning Homes; ages 13 to 18 are served through Adolescent Treatment Homes.

South: Ages 6 to 18 are served through Oasis on Campus Treatment Homes and Desert Willow Treatment Center.

Other:

Serves children who are covered under fee-for-service Medicaid, HMO Medicaid, or Nevada CheckUp, and children who are uninsured or underinsured.

4.01 Medicaid Totals

Program:

Medicaid is a joint Federal-State program that provides medical services to clients of the State public assistance program and, at the State's option, other needy individuals, as well as augments hospital and nursing facility services that are mandated under Medicaid. States may decide on the amount, duration, and scope of additional services, except that care in institutions primarily for the care and treatment of mental disease may not be included for persons over age 21 and under age 65.

Eligibility:

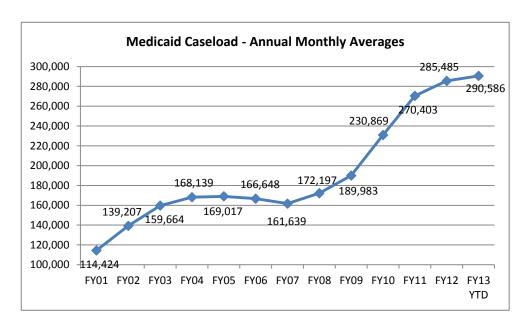

Eligibility for Medicaid is not easily explained as there are a number of different mandatory and several optional categories where eligibility can be approved. For more detailed information about the many different categories of Medicaid eligibility, please see:

http://dwss.nv.gov/index.php?option=com_contentandtask=viewandid=96andItemid=247#callandItemid=248

All statistics are estimates only and must be qualified as such if used either verbally or in written form.

Comment:

All of the significant changes in caseload, including the FY 2007 "dip", arose for macroeconomic reasons. There were no material explanatory changes in other areas (e.g., eligibility criteria or take-up rate) during the period. The principal causal factors are (1) population/demographic change, (2) secular trends in returns-to-skills, (3) the cyclic variation in the overall economy, (4) the cyclic variation in the labor market and (5) the complex lags associated with the aforementioned cycles and caseloads for means-tested social programs.

4.02 Nevada Check Up

Program:

Authorized under Title XXI of the Social Security Act, Nevada Check Up is the State of Nevada's Children's Health Insurance Program (SCHIP). The program provides low cost, comprehensive health care coverage to low income, uninsured children 0 through 18 years of age who are not covered by private insurance or Medicaid.

Eligibility:

- The family's gross annual income is between 100 percent and 200 percent of the Federal Poverty Level guidelines; and
- The child is a U.S. citizen, "qualified alien" or legal resident with five years residency and is under age 19 on the date coverage will begin; and
- The child must not be eligible for Medicaid or have health insurance within the last six months, or has recently lost insurance for reasons beyond the parents' control.

4.03 Health Insurance for Work Advancement (HIWA)

Program:

The HIWA Program is a component of the MIG (Medicaid Infrastructure Grant) Program which provides necessary health care services and support for competitive employment of persons with disabilities. Federal grant funds are used for infrastructure to establish or improve the capability to provide or manage grant funds for providing Medicaid for employed individuals with disabilities ineligible for any other category of Medicaid. Those receiving this coverage pay a monthly premium of between 5 percent and 7.5 percent of their monthly net income.

Eligibility:

Citizenship, residency, disability and current employment are requirements of the program. The resource limit is \$15,000. A vehicle, special needs trusts, medical savings accounts and tax refunds are some of the resources which are excluded. There are several work-related expenses which are disregarded such as travel-related costs, employment-related personal care aid costs, service animal costs and other costs related to employment.

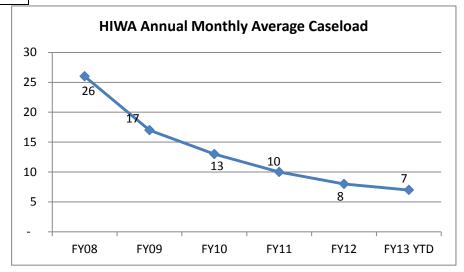

Other:

HIWA was implemented in July 2004. Maximum gross unearned income limit, prior to disregards is \$699. Maximum gross earned income limit, prior to disregards is 450 percent of the Federal Poverty Level (FPL). The total net earned and unearned income must be equal to or less than 250 percent of the Federal Poverty Level. The individual must be disabled as determined by the Social Security Administration, either through current or prior receipt of social security disability benefits. A recipient losing employment through no fault of their own, remains eligible for three additional months provided the monthly premiums continue to be paid. Retroactive enrollment is permitted with payment of monthly premiums.

Comment:

The 2010 American Community Survey of the US Census reported Nevada had an estimate of 2,035,543 persons aged 18 to 64. Of the working age (21-64), 9.5 percent were people with disabilities, 37.7 percent of those adults with disabilities were in the labor force. The poverty rate of working-age people with disabilities was 23.8 percent. The poverty rate of working-age people without disabilities was 12.0 percent.

4.04 Waiver - Persons with Physical Disabilities

Program:

The State of Nevada Home and Community-Based Waiver for Persons with Physical Disabilities (WIN) is operated by the Nevada Division of Health Care Financing and Policy (DHCFP). The goals of this waiver are to provide the option of home and community-based services as an alternative to nursing facility placement and to allow maximum independence for persons with physical disabilities who would otherwise need nursing facility services.

Eligibility:

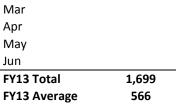

Interest in waiver services initiates a screening process to determine if the individual appears to meet the following eligibility requirements:

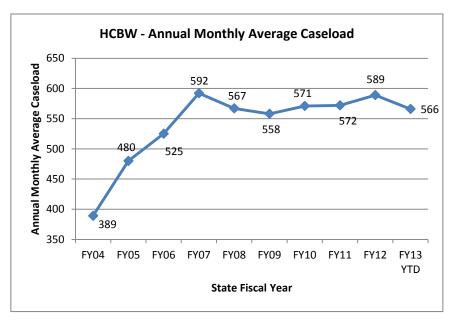

- without the waiver services, would require institutional care provided in a skilled nursing facility or intermediate care facility for the mentally retarded (ICF/MR);
- applies for and is determined eligible for full Medicaid benefits through the Division of Welfare and Supportive Services (DWSS);
- is certified as physically disabled by DHCFP's Central Office Disability Determination Team.

Workload History:

5.01 TANF Cash Total

Program:

Temporary Assistance for Needy Families (TANF) is a time-limited, federally-funded block grant to provide assistance to needy families so children may be cared for in their homes or in the homes of relatives. TANF provides parents/caregivers with job preparation, work opportunities and support services to enable them to leave the program and become self-sufficient.

Eligibility:

Citizenship, residency, children's immunizations and proof of school-age children in school, living with a specified relative, social security number for each recipient, less than \$2,000 countable resources per TANF case (exceptions: 1 automobile, home, household goods and personal items).

Need Standard:

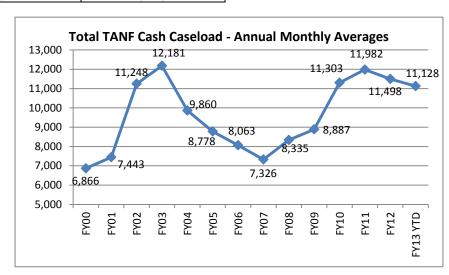

Household Size	Need Standard 100%	Payment Allowance 75% of FPL	NNRC* 275% FPL*	NNCT* Allowance
1	\$698	\$253	\$2,560	\$417
2	\$946	\$318	\$3,468	\$476
3	\$1,193	\$383	\$4,375	\$535
4	\$1,441	\$448	\$5,283	\$594
5	\$1,688	\$513	\$6,190	\$654

Comments:

FY02 and FY03 still showed significant caseload growth attributed to the terrorist attacks of September 11, 2001. With the turnaround of the economy, good jobs, and low unemployment rates, caseloads dropped considerably starting in FY04 through FY07. FY08 started showing the effects of the current deep recession (started in December 2007), with many layoffs and high unemployment rates.

Total of all Cash Cases. For statistical purposes only as each aid code is different and cannot be compared.

^{*}NNRC = Non-Needy Relative Caregiver; FPL = Federal Poverty Level

5.02 TANF Cash - Kinship Care

Program:

Kinship Care provides cash assistance for children who are residing with a specified relative because of the absence of the child's parent(s). The caregiver must be a resident of Nevada, be 62 years of age or older, have exercised parental care and control of the child in their home for a minimum of six consecutive months, file for an obtain Nevada state or tribal court approval of legal guardianship. No adult parent of a child may reside in the household.

Eligibility:

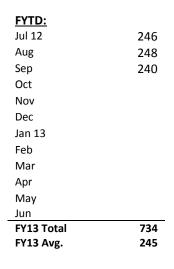

Citizenship, residency, children's immunizations and proof of school-age children in school, living with a specified relative, social security number for each recipient, less than \$2,000 countable resources per TANF case (exceptions: 1 automobile, home, household goods and personal items). The total household income for Kinship Care caretakers must be less than or equal to 275 percent of the federal poverty level for the number of people in the Kinship Care home. If the household's income is less than or equal to 275 percent, the payment amount is determined considering only the child's income.

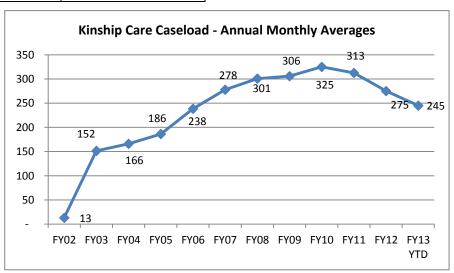

Other:

Kinship Care Allowance: 0-12 year of age = \$400 per child (unless only one child in this age group in the home the amount is \$417; 13 years and above = \$462 per child

Workload History:

Fiscal Year	Total Cases	Total Expenditures
FY 11	313	\$3,353,125
FY 12	275	\$2,447,390

Comments:

This program started in FY02 (October 2001 first month). In September 2011, the benefit amount was

reduced 25 percent.

Website:

https://www.dwss.nv.gov/dmdocuments/Gen KinshipCareBrochure.pdf

5.03 TANF Cash - Loan

Program:

Eligible households will receive a monthly payment designed to meet the family's needs until an anticipated future source of income is received. Each adult household member(s) must have a reasonable expectation of a future source of income in order to repay the loan. For example, an applicant pending receipt of SSI may receive Loan benefits which will be required to be paid back upon approval and receipt of SSI benefits. While the case manager can determine which families are most appropriate for this payment, the family must choose whether it is appropriate for them.

Eligibility:

The household must have income within certain limits to be eligible for benefits. The maximum allowable income is based on the number of persons in the assistance unit to determine the payment allowance. The resource limit for the household is \$2,000 (exceptions not all inclusive one automobile, home living in, household goods and personal items). TANF lifetime or Nevada time limit months, citizenship, residency, children's immunizations, living with a specified relative, social security numbers.

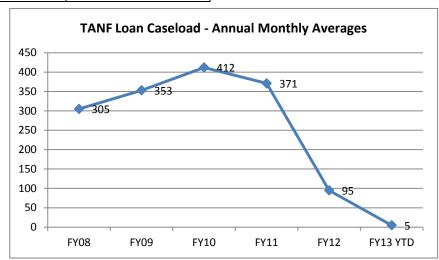

Need Standard:

Household Size	Need Standard 100%	Payment Allowance
1	\$698	\$253
2	\$946	\$318
3	\$1,193	\$383
4	\$1,441	\$448
5	\$1,688	\$513
6	\$1,936	\$578
7	\$2,183	\$643
8	\$2,431	\$708

Workload History:

Fiscal Year	Total Cases	Total Expenditures
FY 11	371	\$1,441,618
FY 12	95	\$356,478

Comments:

This program started in FY08 (October 2007 first month). In FY11, a steep downward trend began due to policy clarification of eligibility requirements.

5.04 TANF Cash - Self-Sufficiency Grant

Program:

The Self-Sufficiency Grant (SSG) is a one-time lump-sum payment designed to meet and immediate need until regular income is received from employment, child support or other ongoing sources. While the case manager can determine which families are most appropriate for this payment, the family must choose whether it is appropriate for them. If eligible, the amount of the SSG payment is negotiated and is based on allowable needs of the household which if met, would assist the family in being self-sufficient without the need for ongoing TANF.

Eligibility:

The household must have income within certain limits to be eligible for benefits. The maximum allowable income is based on the number of persons in the assistance unit to determine the payment allowance. The resource limit for the household is \$2,000 (exceptions not all inclusive one automobile, home living in, household goods and personal items). TANF lifetime or Nevada time limit months, citizenship, residency, children's immunizations, living with a specified relative, social security numbers.

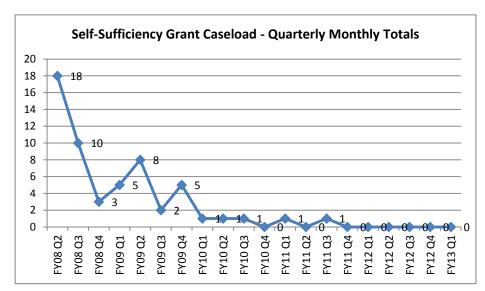

Need Standard:

Household Size	Need Standard 100%	Payment Allowance 33%
1	\$698	\$253
2	\$946	\$318
3	\$1,193	\$383
4	\$1,441	\$448
5	\$1,688	\$513
6	\$1,936	\$578
7	\$2,183	\$643
8	\$2,431	\$708

Workload History:

Fiscal Year	Total Cases	Total Expenditures
FY 10	3	\$3,187
FY 11	2	\$3,434
FY 12	0	\$0

Comments:

This program started in FY08 (October 2007 first month). SSG is a one-time lump sum payment designed to meet an immediate need until regular income is received from employment, child support or other ongoing sources. The amount of the SSG payment is negotiated based on the immediate need required. Households must meet TANF SSG eligibility requirements. This caseload is projected to remain very small with only a few cases being able or willing to meet these requirements.

5.05 New Employees of Nevada (NEON)

Program:

The Nevada Division of Welfare and Supportive Services' TANF Employment and Training Program is called "New Employees of Nevada (NEON)". The program provides a wide array of services designed to assist TANF households in becoming self-sufficient primarily through training, employment and wage gain; thereby, reducing or eliminating their dependency on public assistance programs. NEON provides support services in the form of child care, transportation, clothing, tools and other special items necessary for employment.

Eligibility:

Individuals who meet the definition of a "work eligible individual" are NEON mandatory. This **includes** all adults or minor head-of-households (HOH) receiving assistance under the TANF-NEON program. This **excludes** minor parents not HOH or married to the HOH, aliens not eligible for TANF, SSI recipients, parents caring for disabled family members in the home, and tribal TANF recipients.

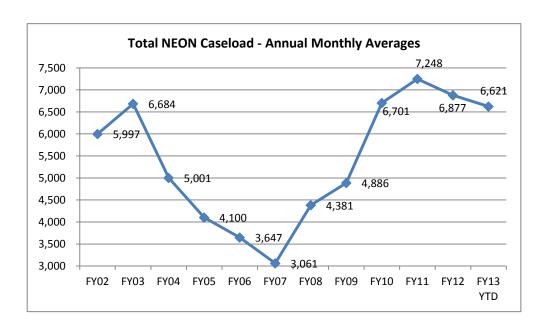

Workload History:

Fiscal Year	Average Cases
FY 10	6,701
FY 11	7,248
FY 12	6,877

Comments:

FY02 and FY03 showed significant caseload growth attributed to the terrorist attacks of September 11, 2001. FY04 through FY07 began a turnaround of the economy which provided good jobs and low unemployment rates. Caseloads dropped considerably during this period. FY08 through FY11 caseloads reflect the effects of the deep recession that started in December 2007.

5.06 Total TANF Medicaid

Program:

Households who meet TANF requirements but choose not to receive cash or have reached their time limits are eligible for Medicaid. In addition, households receiving TANF cash or Medicaid who become ineligible due to earned income or excess child support may remain eligible for Medicaid for up to 12 months when certain conditions are met. Households with excess earned income may remain eligible up to 12 months. Those with excess child support remain eligible for up to four months.

Eligibility:

Citizenship, residency, children's immunizations and proof of school-age children in school, social security number for each recipient, less than \$2,000 countable resources per TANF-Related Medicaid case (exceptions: one automobile, home, household goods, and personal items). The income limits and income tests are the same as the TANF Cash program

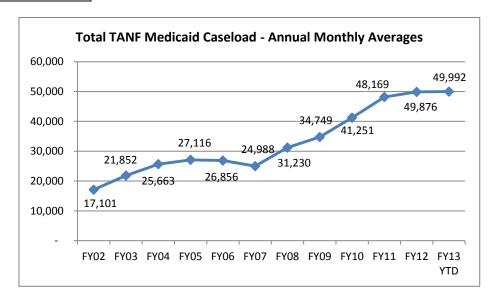

Need Standard:

Household Size	Need Standard 100%	Payment Allowance 33%
1	\$681	\$253
2	\$919	\$318
3	\$1,158	\$383
4	\$1,397	\$448
5	\$1,636	\$513
6	\$1,874	\$578
7	\$2,113	\$643
8	\$2,352	\$708

Workload History:

Fiscal Year	Average Cases
FY 10	41,251
FY 11	48,169
FY 12	49,876

Comments:

Starting October 2007 all TANF Cash recipients were not categorically eligible for Medicaid. TANF Cash recipients have a dual TANF Medicaid aid code. This explains part of the increase in FY08. The recession that began in December 2007 led to increased caseloads between FY08 and FY11.

Total of all TANF Med cases. For statistical purposes only as each aid code is different and cannot be compared.

5.07 Child Health Assurance Program (CHAP)

Program:

The Child Health Assurance (CHAP) program provides pregnancy-related Medicaid for pregnant women and full Medicaid for children under age six with income greater than 100 percent of the Federal Poverty Level (FPL) but less than or equal to 133 percent of the FPL. Pregnant women and children up through age 19 with income less than or equal to 100 percent of the FPL receive full Medicaid coverage.

Eligibility:

Citizenship, residence and income at or below the two poverty levels. There is no resource test in this program; there is no requirement to live with someone with a certain relationship. In addition, anyone with an interest in the child may make application for CHAP on their behalf.

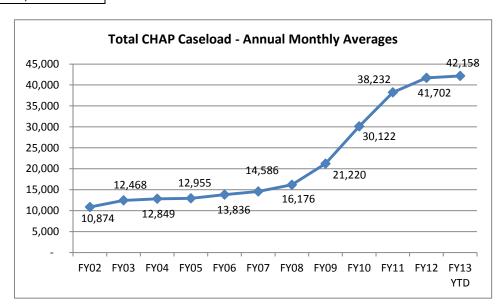

Need Standard:

Household Size	Need Standard 100%	Need Standard 133%
1	\$931	\$1,238
2	\$1,261	\$1,677
3	\$1,591	\$2,116
4	\$1,921	\$2,555
5	\$2,251	\$2,994

5.08 County Match

Program:

Through an agreement with the Division, Nevada counties pay the non-federal share of costs for institutionalized persons whose monthly income is between \$991.01 and 300 percent of the SSI payment level.

Eligibility:

No age requirement, a citizen of the United States or a non-citizen legally admitted for permanent residence to the U.S. and meets certain criteria, or is in another eligible non-citizen category and meets certain criteria.

Other:

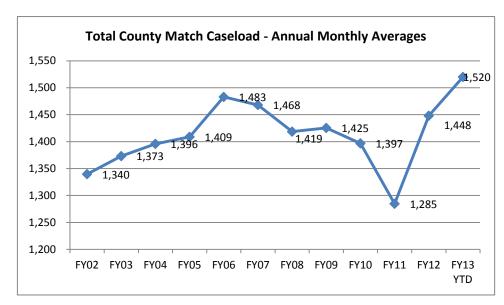

FVTD.

Resource limits are determined by whether a person is considered an individual or a member of a couple. When resources exceed the following limits, the case is ineligible. \$2,000 for an individual or \$3,000 for a couple. Resources are evaluated at market value less encumbrances. Certain types of resources are excluded, such as: Life insurance policies, when the total face value is less than \$1,500. Vehicles necessary to produce income, transportation for medical treatment on a regular basis (specifically handicapped equipped vehicles), or the value of a vehicle up to \$4,500. Burial plots/plans.

Workload History (with Retros*):

Fiscal Year	Average Cases
FY 10	1,397
FY 11	1,373
FY 12	1,448

FTID:	
Jul 12	1,509

Oct	
Nov	
Dec	
Jan 13	
Feb	
Mar	
Apr	
May	
Jun	
FY13 Total	4,560
FY13 Avg.	1,520

Comments:

The downward trend starting after FY06 may be due to an increased number of recipients obtaining Qualified Income Trusts (QIT). Money deposited in a QIT is exempt and a potential County Match recipient may never reach the CM income threshold. In FY12 a change in eligibility requirements increased the caseload.

^{*}Retros (retroactive eligibility) are calculated based on previous years' total ending cases. A percentage factor is added to current caseloads to account for cases that were approved for previous months' eligibility.

5.09 Medical Assistance to the Aged, Blind, and Disabled

Program:

These are medical service programs only. Many applicants are already on Medicare and Medicaid supplements their Medicare coverage. Additionally, others are eligible for Medicaid coverage as a result of being eligible for a means-tested public assistance program such as Supplemental Security Income (SSI). Categories are: SSI, State Institutional, Non-Institutional, Prior Med, Public Law, Katie Beckett.

Eligibility:

No age requirement (except for Aged), a citizen of the United States or a non-citizen legally admitted for permanent residence to the U.S. and meets certain criteria, or is in another eligible non-citizen category and meets certain criteria.

Other:

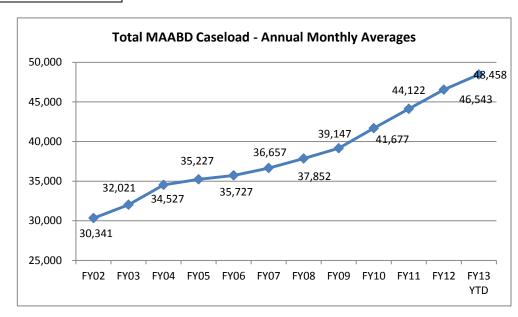

Resource limits are determined by whether a person is considered an individual or a member of a couple. When resources exceed the following limits, the case is ineligible. Medicare Savings Program cases: \$6,940- for an individual or \$10,410 for a couple. Other cases: \$2,000 for an individual or \$3,000 for a couple. Resources are evaluated at market value less encumbrances. Certain types of resources are excluded, such as: Life insurance policies, when the total face value is less than \$1,500; vehicles necessary to produce income; transportation for medical treatment on a regular basis (specifically handicapped equipped vehicles), or the value of a vehicle up to \$4,500; burial plots/plans.

Workload History (with Retros*):

Total of all MAABD cases. For statistical purposes only as each aid code is different and cannot be compared.

^{*}Retros (retroactive eligibility) are calculated based on previous years' total ending cases. A percentage factor is added to current caseloads to account for cases that were approved for previous months' eligibility. SSI cases can take up to three years for approval/denial.

5.10 Supplemental Nutrition Assistance Program (SNAP)

Program:

The purpose of SNAP is to raise the nutritional level among low income households whose limited food purchasing power contributes to hunger and malnutrition among members of these households. Application requests may be made verbally, in writing, in person or through another individual. A responsible adult household member knowledgeable of the household's circumstances may apply and be interviewed. The date of application is the date the application is received in the Division of Welfare and Supportive Services office.

Eligibility:

The household's gross income must be less than or equal to 130 percent of poverty; the household's net income must be less than or equal to 100 percent of poverty to be eligible. Households in which all members are elderly or disabled have no gross income test. The resource limit for all households except those with elderly or disabled members is \$2,000; households with elderly or disabled members have a resource limit of \$3,250 (exceptions: one vehicle, home, household goods, and personal items.

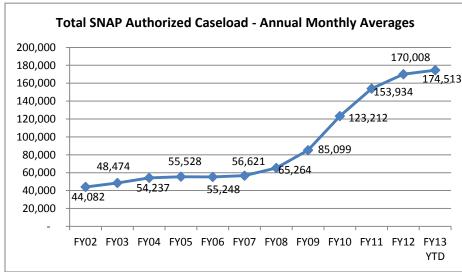

Need Standard:

Household Size	200% of Poverty	130% of Poverty	100% of Poverty	Maximum Allotment
1	\$1,862	\$1,211	\$931	\$200
2	\$2,522	\$1,640	\$1,261	\$367
3	\$3,182	\$2,069	\$1,591	\$526
4	\$3,842	\$2,498	\$1,921	\$668
5	\$4,502	\$2,927	\$2,251	\$793
6	\$5,162	\$3,356	\$2,581	\$952
7	\$5,822	\$3,785	\$2,911	\$1,052
8	\$6,482	\$4,214	\$3,241	\$1,202

Workload History:

Fiscal Year	Average Cases	Total Expenditures	Total Applications
FY 11	153,934	\$477,682,415	287,710
FY 12	170,008	\$518,493,663	312,302

Comments:

The Food Stamp Program was renamed "Supplemental Nutrition Assistance Program (SNAP)" in October 2008. The SNAP caseload has increased substantially since the start of the recession in December 2007 because of the high unemployment experienced in Nevada. A change in SNAP regulations effective 3/15/2009 made many households categorically eligible based on receiving a benefit which meets Purposes 3 and 4 for TANF and having a gross income limit of 200 percent of poverty. There is no further income or resource test.

Website:

https://www.dwss.nv.gov/index.php?option=com_contentandtask=viewandid=84andItemid=234 https://www.dwss.nv.gov/

5.11 Supplemental Nutrition Employment and Training Program (SNAPET)

Program:

SNAPET promotes the employment of SNAP participants through job search activities and group or individual programs which provide a self-directed placement philosophy, allowing the participant to be responsible for his/her own development by providing job skills and the confidence to obtain employment. SNAPET also provides support services in the form of transportation reimbursement, bus passes and assistance meeting the expenditures required for job search (such as interview clothing, health or sheriff's card if it is know that one will be required).

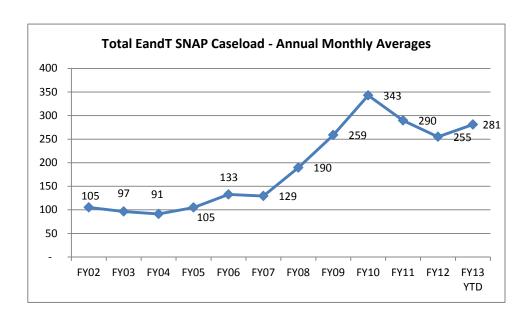

Eligibility:

Registration and participation is mandatory and a condition of SNAP eligibility for all non-exempt SNAP participants. Persons who are exempt may volunteer. Persons are exempt when they are under age 16, age 60 or older, disabled, caring for young children under the age of 6 or disabled family members or are already working.

Workload History:

Fiscal Year	Average Cases
FY 10	343
FY 11	290
FY 12	255

FYTD:	
Jul 12	282
Aug	309
Sep	251
Oct	
Nov	
Dec	
Jan 13	
Feb	
Mar	
Apr	
May	
Jun	
FY13 Total	842
FY13 Avg.	281

Comments:

The SNAPET caseload usually parallels the SNAP caseload but on a smaller scale since we only work with clients who do not meet a work exemption. These clients are classified as work mandatory and are required to complete a two month job search program or until they have become employed. Note that beginning in FY11, only mandatory clients invited to orientation were counted.

5.12 Child Care and Development Program

Program:

The Child Care Program assists low-income families, families receiving temporary public assistance, or families with children placed by CPS and foster parents by subsidizing child care costs so they can work. Households are able to qualify for child care subsidies based upon their total monthly gross income, household size, and other requirements. Assistance is provided through three programs: Traditional (certificate for licensed or informal child care); Contracted Slots (before and after school programs); and Wrap-Around (services before and after the Head Start Program).

Eligibility:

To qualify for child care subsidy assistance, the child must be 12 years old or younger unless the child has a verified special need. Other factors include citizenship, immunizations, relationship, residency, and social security numbers. Additionally, adult household members and minor parents must have a purpose of care such as working or a minor parent attending high school.

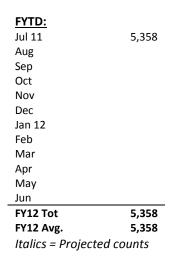

Fee Scale:

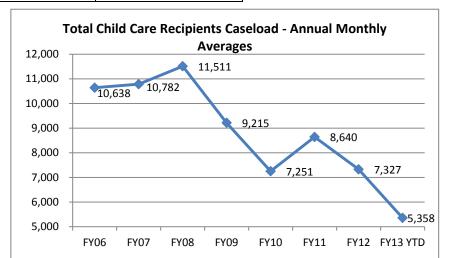

The sliding fee scale provides the income limits for each household size. This is an example for a four person household. The subsidy column indicates the percentage of the state approved maximum child care rate which would be paid by the Child Care and Development Program.

Income Limits f	or Family of Four	Note	Subsidy %
\$0	\$1,863	\$1,863 = Federal Poverty Level	95%-110%
\$1,864	\$2,188		90%
\$2,189	\$2,512	\$2,421 = 130% Federal Poverty Level	80%
\$2,513	\$2,837		70%
\$2,838	\$3,161		60%
\$3,162	\$3,486		50%
\$3,487	\$3,811		40%
\$3,812	\$4,135		30%
\$4,136	\$4,452	\$4,452 = 75% of NV median income	20%

Workload History:

Fiscal Year	Average Cases	Total Payments
FY 11	8,640	\$34,534,446
FY 12	7,327	\$30,201,600

Comments:

The unserved population in the Discretionary category was established in FY09, which capped that population at 2,500. Unserved population included "wait list" and an estimated caseload reduction due to program changes. This caused a significant downturn compared to previous fiscal years.

Beginning in FY12, Training Purpose of Care has been eliminated and Student Purpose of Care has been eliminated except for minor parents attending high school.

5.13 Child Support Enforcement Program

Program:

The program is a federal, state, and local intergovernmental collaboration functioning in all 50 states, the District of Columbia, the Commonwealth of Puerto Rico, Guam, and the Virgin Islands. The Office of Child Support Enforcement in the Administration for Children and Families of the U.S. Department of Health and Human Services helps states develop, manage and operate child support programs effectively and according to federal law.

The CSEP is administered by DWSS and jointly operated by State Program Area Offices (PAO) and participating county District Attorney offices through cooperative agreements.

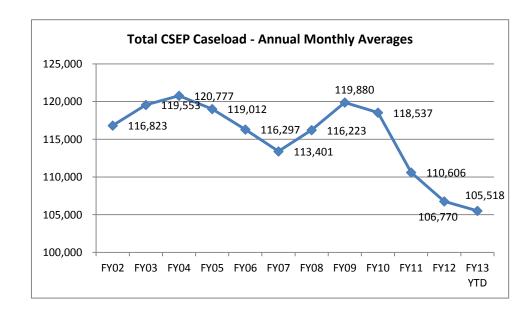

Eligibility:

There are no eligibility requirements for child support services, which include locating the non-custodial parent, establishing paternity and support obligations, and enforcing the child support order. Non-public assistance custodians complete an application for services. Public assistance custodians must assign support rights to the state ad cooperate with the agency regarding Child Support Enforcement (CSE) services.

Workload History:

Fiscal Year	Average Cases	Gross Collections
FY 11	110,606	\$198,573,814
FY 12	106,770	\$205,934,166

105,747
107,325
103,483
316,555
105,518

Comments:

The CSE caseload trend is tied closely to the economy. When the economy is good, fewer customers need child support services; when there is a downward turn in the economy, more customers need child support services. Additional factors contributing to the caseload trend going down include case closure projects and stopping inappropriate referrals (unborn cases). A factor that may contribute to an increase in caseload is an increase in public assistance referrals and non-assistance applications due to the current economic environment and high unemployment rate.

https://www.dwss.nv.gov/index.php?option=com contentandtask=viewandid=56andItemid=129

5.14 Energy Assistance Program

Program: The Energy Assis

The Energy Assistance Program (EAP) assists eligible Nevadans maintain essential heating and cooling in their homes during the winter and summer seasons. The program provides for crisis assistance as well.

Eligibility:

Citizenship, Nevada residency, household composition, Social Security numbers for each household member, energy usage and income are verified prior to the authorization and issuance of benefits. Eligible households' income must not exceed 110 percent of poverty level. Priority is given to the most vulnerable households, such as the elderly, disabled and young children.

Need Standard:

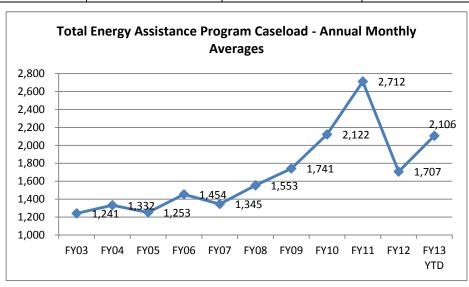

2011 HHS Poverty Guidelines		
Persons in	48 Contiguous	
Family	States and D.C.	
1	\$10,890	
2	\$14,710	
3	\$18,530	
4	\$22,350	
5	\$26,170	
6	\$29,990	
7	\$33,810	
8	\$37,630	

60 percent estimated state median income for a four person household for FFY2012 was \$42,738.

Workload History:

Fiscal year	Average Cases	Total Cases	Total Expenditures	Total Applications
FY 11	2,712	32,544	\$28,335,649	42,611
FY 12	1,707	20,484	\$11,361,013	38,643

FY13 Total	6,318
FY13 Avg.	2,106

Comments:

Nevada's Energy Assistance Program in FY09 received a larger Low Income Heat Energy Assistance Block Grant than planned. This combined with an increased demand in program services due to the current economic climate has resulted in increased application activity and consequently additional cases being approved. In FY12 the eligibility requirements were changed to lower the monthly benefit amount and FPL from 150 percent to 110 percent, which has decreased the EAP caseload. FY13 increased benefits to 125 percent FPL.

https://www.dwss.nv.gov/index.php?option=com contentandtask=viewandid=116andItemid=285

6.01 Early Intervention Services (Part C, Individuals with Disabilities Education Act)

Program:

With regional sites in Las Vegas, Reno, Carson City, Elko and Ely, the Nevada Early Intervention Services (NEIS) provides services for children under the age of three with developmental delays. In addition, State Health Division contracts with community providers to provide early intervention services. The Part C Individuals with Disabilities Education Act (IDEA) Office is responsible for ensuring that all families have equal access to an early intervention program with appropriate services and supports.

FY12 Funding:

State General Funds	Federal Funds	Third Party Revenue	Other Funds	Total FY12 Funding
\$19,710,338 (80.4%)	\$3,760,209 (15.3%)	\$705,767 (2.9%)	\$337,531 (1.4%)	\$24,513,845

Federal Funds includes IDEA/Maternal and Child Health/Child Care Development Funds; Third Party includes Medicaid and private insurance

Eligibility:

In Nevada, a child must be under the age of three and have a minimum of a 50 percent delay in one developmental area or a 25 percent delay in two of the following areas: cognitive development, social or emotional development, physical development, including vision and hearing, communication, or adaptive development. A child may also be eligible for services if they have a diagnosed physical or mental condition that has a high probability of resulting in a developmental delay.

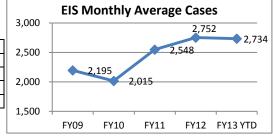

Other:

Early intervention services include but are not limited to: service coordination, occupational, physical, and speech therapies, vision and bearing services, nutritional services, specialized instruction, parent support, training and counseling, interpreting services, and assistive technology. Services are voluntary and provided at no cost to parents. Services focus on supporting the family to find opportunities for learning in their child's daily routine, such as playtime, mealtime, etc. With parent permission, commercial insurance may be used to assist with service costs. Part C, Individuals with Disabilities Education Act (IDEA) Office ensures compliance with the federal requirements of the Individuals with Disabilities Education Improvement Act of 2004, including parent procedural safeguards for dispute resolution. Part C, IDEA staff monitor all early intervention programs in the state and provide training to ensure that early interventionists have the most current best practices information. Compliance monitoring and accountability includes self-assessment measures, as well as external reviews, technical assistance, data

collection, and investigating formal parent complaints.

Workload History:

Fiscal Year	Monthly Average Cases	Total Expenditures	Total Referrals

FY13 YTD	1,373	8,202	917	7,285	530
FY13 Avg.	458	2,734	306	607	177

^{*}This number will not be final until a quarterly clean-up of the data is completed.

Comments:

Referrals are primarily received from the following sources; parents, physician, social service agencies, and hospitals. The child is then assessed by a multi-disciplinary team to determine eligibility, eligibility needs to be established and an Individualized Family Service Plan (IFSP) needs to be developed within 45 days of the referral. Services are required to start no later than 30 days after the development of the IFSP. Children leave early intervention by aging out at three years of age or move out of state, parent withdraws, attempts to contact the family are unsuccessful, child dies or the goals on the IFSP have been met.

Website: http://health.nv.gov/BEIS.htm

6.02 Early Hearing Detection and Intervention

Program:

The Nevada Early Hearing Detection and Intervention (EHDI) program works to ensure that all infants are screened for hearing loss at birth and that all infants identified with hearing loss receive appropriate intervention. The program is funded by grants from the Centers for Disease Control and Prevention (CDC) and Health Resources and Services Administration (HRSA). The negative effects of hearing loss can be substantially mitigated through early intervention that may include amplification, speech therapy, and/or signing. EHDI works with 19 birthing hospitals statewide and with Nevada Early Intervention Services to ensure infants are screened, identified, and entered into services within necessary time frames. The program also partners with non-profit agencies focused on hearing loss throughout the state, works with hospitals, audiologists, and parents to develop and update best practices, and works with parents to provide education.

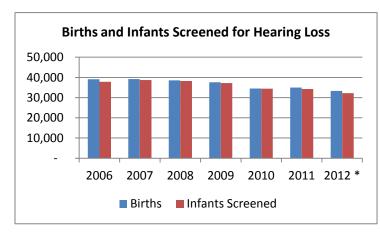

Eligibility:

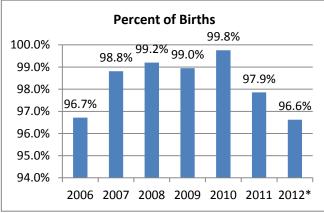

NRS 442.450 requires all hospitals in the state with 500 or more births per year to screen newborn infants' hearing. However, all birthing hospitals in the state, even those with less than 500 births per year, are providing hearing screenings. All infants referred with hearing loss identified through hearing screening are eligible for Nevada Early Intervention Services.

Other:

Intervention increases the access to services and dramatically decreases the long-term costs associated with hearing loss.

Calendar Year	Infants Screened	Births	Percentage of Births
2006	37,838	39,122	96.72%
2007	38,744	39,209	98.81%
2008	38,232	38,541	99.20%
2009	37,205	37,600	98.95%
2010	34,433	34,517	99.76%
2011	34,263	35,013	97.86%
2012*	32,171	33,298	96.62%

Comments:

*2012 is a preliminary projection. "Infants Screened" and "Births" are annualized based on data submitted for January 1, 2012 - June 30, 2012. Data for third quarter is not yet available.

Websites:

http://health.nv.gov/NCCID NewbornHearing.htm http://www.cdc.gov/ncbddd/ehdi/

6.03 Public Health and Clinical Services

Program:

Public Health and Clinical Services (PHCS) is the combination of Community Health Nursing, Environmental Health Services, Early Intervention Services (EIS), and WIC. These programs promote optimal wellness in frontier and rural Nevada through the delivery of public health nursing, preventive health care, food safety inspections, early detection of threats to public health, response to natural and human caused disasters, and education and statewide for EIS and WIC. Essential public health services such as adult and child immunizations, well child examinations, chronic disease education, lead testing, Family Planning/Cancer Screening, identification/treatment of communicable diseases such as Tuberculosis (TB), Sexually Transmitted Diseases (STD) and Human Immunodeficiency Virus (HIV) are offered. Two Community Health Nurses (CHN) function as the school nurse in the rural districts without school nurses. Other nursing services are provided based on the needs of the county served.

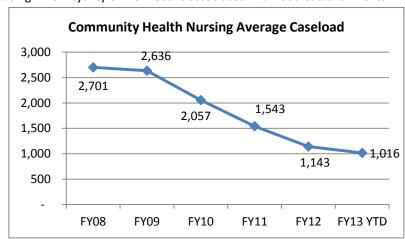

Eligibility:

All individuals may access the CHN clinics. The targeted populations are: the working poor, under- and uninsured, and indigent populations of the fourteen (14) frontier and rural counties in Nevada. PHCS CHN services are based on the federal poverty guidelines using a Sliding Scale Fee structure. Services are not denied due to inability to pay.

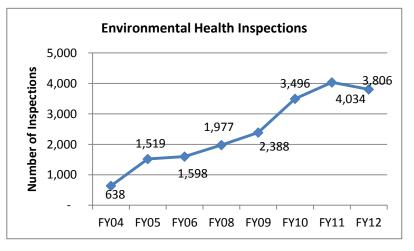

Other:

Environmental Health Services (EHS) involves those aspects of public health concerned with the factors, circumstances, and conditions in the environment or surroundings of humans that can exert an influence on health and well-being. The majority of workload is associated with food establishments.

FY13 Total	3,048
FY13 Average	1,016

Comments:

Community Health Nurse caseloads are generally decreasing due to clinics dispensing family planning method controls for nine month time frames instead of monthly.

Health inspections decreased due to the retirement of two senior environmentalists. The positions have not been filled in anticipation of EHS activities being provided by local health authorities in several counties.

6.04 Newborn Screening (NBS) Program

Program:

Nevada Revised Statutes (NRS) 442.008 mandate that all infants born in Nevada receive newborn screening for congenital disorders. A first screen is collected ideally between 24 and 48 hours of age, and the second screen is ideally collected between the 10th and 15th day of life. The Newborn Screening Program contracts with the Oregon State Public Health Laboratory (OSPHL) to test for at least 30 core conditions and 25 secondary conditions that can be found during screening for the core conditions recommended by the Secretary of Health and Human Services Advisory Committee on Heritable Disorders and Genetic Diseases in Newborns and Children. The OSPHL is contracted to follow-up on positive screens and to provide medical consultants who provide guidance to Nevada's primary care physicians until a confirmation of a diagnosis is reached. Families of infants with identified disorders can access follow-up services through Nevada Early Intervention Services or other community providers. The Newborn Screening Program is funded entirely with birth registration fees.

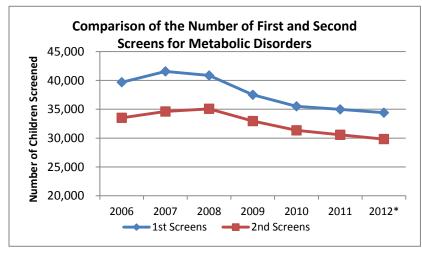

Eligibility:

There are no eligibility requirements. Newborn screens are required of all infants born in Nevada. Birthing facility staff is required to collect an acceptable sample before the infant is discharged from the facility and to submit the sample for metabolic screening as required in NAC 442.020-050.

Infants Screened by Year:

Year	Number of First Screens	Number of Second Screens	Total Number of Screenings	Percent of First Screen Babies that also Received Second Screens
2008	40,858	35,080	75,938	85.9%
2009	37,509	32,947	70,450	87.8%
2010	35,510	31,341	66,851	88.3%
2011	34,974	30,570	65,544	87.4%
2012*	34,404	29,826	64,230	86.7%

*Calendar Year 2012 birth data is based upon screenings that occurred between January 1, 2012 and August 31, 2012. Actual year-to-date data is annualized for projection purposes. Calendar year 2012 projected data is regularly updated to reflect the most current actual data available.

Comments:

In 2011, virtually 100% of all babies born in Nevada received at least one screen since newborn screening is mandatory unless the parent formally refuses to have their infant screened. Programs in the United States that provide a second newborn screen historically report a gap of between 10 and 20 percent for infants that receive both screenings and infants receiving only the initial screening. In Nevada in 2011, the gap was 12.6 percent and current projections for 2012 show a similar percentage. Factors which influence the number of children receiving a second screen include whether or not parents and primary care physicians received appropriate education regarding the importance of a second newborn screening, whether there is parental follow-through to ensure that a second screen is completed, and whether the first screening indicated that results were in the normal range.

Website: http://health.nv.gov/NCCID NewbornScreening.htm

6.05 Oral Health Program

Program:

Nevada State Health Division, Oral Health Program (OHP) provides technical support to organizations that implement school-based dental sealant programs. The FY 2009 statewide Third Grade Basic Screening Survey (BSS) showed 37.5 percent of Nevada's third grade students have a sealant.

The **Saint Mary's Take-Care-a-Van** sealant program serves at risk 2nd Grade children who attend qualifying schools primarily in Washoe County. They provide screenings, sealants, fluoride varnish treatments, oral health education, referrals and tracking of children seen.

Seal Nevada South has been revitalized and began screening, educating and placing sealants on children in 2nd and 3rd Grade. They have recently revitalized their program in January 2012 and therefore data portrayed reflects half of the standard school year. They have future plans to expand services to include 2nd through 5th Grade children. Data is currently unavailable for comparison. They did not serve any schools in the first quarter of fiscal year 2013.

Future Smiles is a school-based dental sealant program in Las Vegas that provides screenings, dental sealants, prophys and fluoride varnishes. Their target population is 18-years of age and younger. That age is expanded to 21-years if the child being sought has special needs. This program operates out of four different sites, two of which accommodate walk-ins from the outside community.

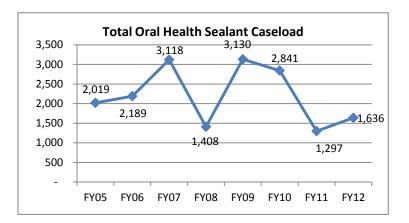

Eligibility:

For dental sealants, schools with > 50 percent Free and Reduced lunch eligibility or located in a county that has been designated as underserved.

Caseload History:

2012	Children	Sealants
2012	Served	Placed
St. Mary's Take-Care-a-Van	508	1,431
Seal Nevada South	N/A	N/A
Future Smiles	1,128	5,102
Total	1,636	6,533

2013 YTD	Children Served	Sealants Placed
St. Mary's Take-Care-a-Van	0	0
Seal Nevada South	12	49
Future Smiles	121	895
Total	133	944

Comments:

Sealant Efficiency Assessment for Locals and States (SEALS, 2009) is a software program developed by the Centers for Disease Control and Prevention (CDC) to provide a uniform tracking resource for school-based sealant programs. Currently, Seal Nevada South and Future Smiles are the only programs utilizing this tracking program. St. Mary's reports individual teeth sealed and Seal Nevada South and Future Smiles report sealant surfaces when collecting data.

Website:

http://health.nv.gov/CC OralHealth.htm

6.06 Ryan White AIDS Drug Assistance Program

Program:

The Ryan White Part B program is a federally funded grant that offers many services for HIV and AIDS residents of Nevada who meet the eligibility criteria. The AIDS Drug Assistance Program (ADAP) is the Ryan White CARE Program that combines federal and state funds to supply formulary medications to clients through contracted ADAP pharmacies. Medicare Part D and Health Insurance Continuation Program assistance is also available. Eligibility intake is offered in the north and south at the ACCESS to Healthcare offices.

Eligibility:

Client income must not exceed 400 percent of federal poverty level guidelines - approximately \$43,560 for a single person. A client may own a single-family home and a car. Additional assets of the client may not exceed \$4,000. Lab tests for T-cell and viral load must be done every six months. Ryan White eligibility recertification is mandated every six months. Necessary documents must be provided at each recertification.

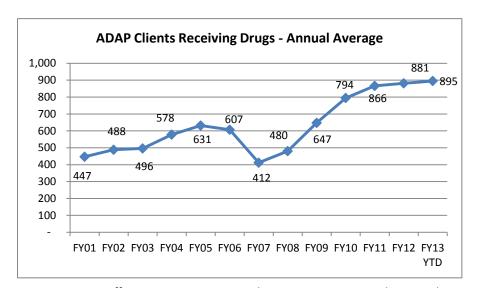

Workload History:

State Fiscal Year	Avg. Cases/Month	Total Expenditures
FY08	480	\$6,946,589
FY09	647	\$7,565,496
FY10	794	\$8,509,961
FY11	866	\$8,100,917
FY12	880	\$8,417,531
FY13 YTD	895	\$8,661,649

Comments:

The Medicare Part-D program went into effect on January 1, 2006. Clients were not required to complete their enrollment until May 15, 2006. The Ryan White ADAP program did not see the full effect of the decrease in client caseload until June 1, 2006. The chart above reflects the significant drop in the client case load between FY06 and FY07. The FY 08 Tot Expend includes State and Federal ADAP Drug costs, HICP expenditures as well as ADAP monitoring expenses. Starting at the beginning of 2007, the program was seeing the same trend in new clients as it did from 2003 - 2005. This case load has averaged about 12-16 percent year-over-year increase with the exception of the implementation of Medicare Part-D. The current average cost per client is \$12,000/yr. for ADAP only clients (\$1 mil/83 clients). Stats for 2009 and beyond reflect ADAP, COB and SPAP clients accessing medication per month. Prior to this time SPAP and COB enrollments were not part of this report.

The cost of drugs has maintained level or slightly less than in previous years based on NASTAD discounts that have been negotiated during the past year. We anticipate a discount of up to 7 percent over CY2011 on some of the more popular drugs. There has been a slight increase in the number of total average clients that we have served during the prior twelve months.

Website:

http://health.nv.gov/HIVCarePrevention.htm

6.07 Sexually Transmitted Disease Program

Program:

The Sexually Transmitted Disease Prevention and Control Program's major function is to reduce the incidence and prevalence of sexually transmitted diseases in Nevada. The program emphasizes the importance of both education and screening of people who engage in high-risk activities by a comprehensive program of: 1) case identification and locating, 2) testing and treatment, and 3) education. The program's functions are achieved by working through public and private medical providers, local health authorities, and state and local disease intervention specialists.

Trends:

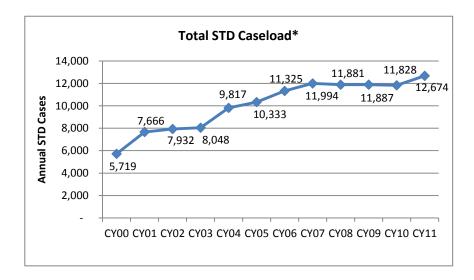

For CY 2012: Q1-Q3, data shows only minor changes in the number of reportable STDs (Chlamydia, Gonorrhea, and Primary and Secondary (PandS) Syphilis) when compared to 2011, if the number of cases reported per month holds steady for the remainder of 2012. CY 2012: Q1-Q3 compared to CY 2011 shows a potential increase in Gonorrhea cases and a potential decrease in both Chlamydia and PandS Syphilis cases. From January through September of 2012, there were 1,580 Gonorrhea cases reported, 7,989 Chlamydia cases, and 72 PandS Syphilis cases. In 2011, data show a significant increase in all reportable STDs (Chlamydia, Gonorrhea, and Primary and Secondary (P and S) Syphilis) when compared to 2010. In 2011, there were 10,528 Chlamydia cases reported, up six percent from 2010. Similarly, there were 2,010 Gonorrhea cases, an 11 percent increase from last year. Although P and S Syphilis only increased two percent from 2010 (n=136) to 2011 (n=135), there was a 48 percent increase in cases from 2009 (n=91) to 2011.

Overall in Nevada, reported **Chlamydia** cases have increased from 8,406 in 2006 to 10,528 in 2011, a 25 percent increase during that five year period. The rate of Chlamydia in 2011 in Nevada was 386.4 cases per 100,000 population based on 2010 demographer's interim population estimates. Nevada fell below the national Chlamydia rate of 426.0 cases of per 100,000 population in 2010 (most recent data available).

The total number of reported cases of **Gonorrhea** in Nevada has decreased overall from 2,798 in 2006 to 2,010 in 2011. The Gonorrhea rate in Nevada in 2011 was 73.6 cases per 100,000 persons (based on 2010 demographer's interim population estimates), and Nevada was below the national average of 100.8 cases per 100,000 population.

The **Syphilis** outbreak in Nevada began in 2004 and by 2005, 109 cases of P and S Syphilis cases had been reported. The number of cases reported peaked in 2006, when 137 cases were reported in Nevada and 132 of those cases were residing in Clark County. From 2008 to 2011, the number of cases increased, with 136 identified P and S cases in 2011. Nevada had a rate per 100,000 for P and S syphilis of 5.0 in 2010, which is above the national average of 4.5 (in 2010).

Cy12, Q1-Q1: 9,641

6.08 Women's Health Connection Program

Mission:

Reduce breast cancer mortality and incidence of cervical cancer thereby enhancing the quality of life for Nevada women and their families through collaborative partnerships, health education, and access to high quality screening and diagnostic services.

Program:

The Women's Health Connection (WHC) Program is a federally funded cooperative agreement through the Centers for Disease Control and Prevention (CDC). The cooperative agreement is authorized for 5-year periods, and the current agreement expires on June 29, 2012. Funding is awarded to pay for an office visit for the purpose of having a clinical breast exam, pelvic exam, and Pap test, if needed, for eligible clients. The program pays for the Pap test and will pay for mammograms for women 50 years of age and older. Clients who need a diagnostic work-up based on an abnormal screening exam also are covered by the program. Women diagnosed with breast or cervical cancer as a result of a program-eligible screening or diagnostic service and who are legal citizens of the U.S. are processed into Medicaid for treatment. The program fiscal year is June 30 to June 29 of each year.

Eligibility:

Women must be residents of Nevada, age 40 to 64, not have health insurance, and must meet the income requirements noted below. Women 65 years of age or older who are not eligible for Medicare are eligible for this program.

	<u> </u>
Household Size	Eligible Monthly Income
1	\$2,269
2	\$3,065
3	\$3,860
4	\$4,656
5	\$5,452
6	\$6,248
7	\$7,044
8	\$7,840

Income is based on 250 percent of the Federal Poverty Level with rates adjusted on July 1 of each year.

Workload History:

Fiscal Year	Avg. Screening Cases/Month	Total Expenditures	Total New Enrollees
FY11	731	\$2,527,397	3,612
FY12	678	\$2,353,240	4,337

Comments:

The program contracted to Access to Healthcare Network (AHN) in July 2011 for direct services. AHN has done an excellent job enrolling existing providers into their network to continue screening and diagnostic services for women in Nevada. Screening numbers are unique/unduplicated women who were screened by the program for either a breast or a cervical screening. This includes new enrollments, as well as return (annual) clients.

Website:

http://health.nv.gov/CD WHC BreastCervical Cancer.htm

6.09 Women, Infants, and Children (WIC) Supplemental Food Program

Program:

The Special Supplemental Food Program for Women, Infants, and Children, commonly known as WIC, is a 100 percent federally funded program that provides nutritious foods to supplement the diets of limited income pregnant, postpartum and breastfeeding women, infants, and children under age 5 who have been determined to be at nutritional risk. At WIC participants get access to good healthy foods, advice on good nutrition, health screening, information on health care services like immunizations, prenatal care, and family planning, and information about other family support services available in their community.

Eligibility:

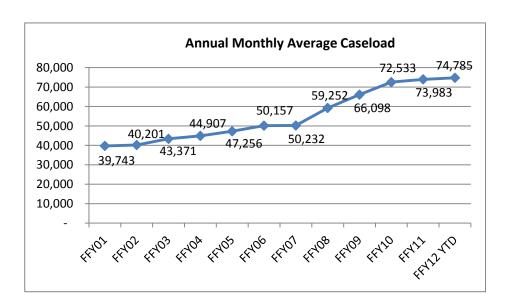

Applicant must be (1) an infant or child under five years of age, (2) a pregnant woman, (3) a postpartum woman (up to 6 months after giving birth), or (4) a breastfeeding woman (up to the breastfeed infants first birthday). Must be a Nevada resident and physically live in Nevada at the time of application. Must be at or below 185 percent of the federal poverty level. Last, but not least, the applicant must be at nutritional risk as determined by a Competent Professional Authority (CPA) at the WIC clinic.

Workload History:

Federal Fiscal Year	Total Expenditures	Average Caseload
FFY08	\$9,570,882	59,252
FFY09	\$9,887,570	66,098
FFY10	\$14,399,912	72,533
FFY11	\$14,280,926	73,983
FFY12 YTD	\$10 829 227	74 785

Sen		

Comments:

As one of the fastest growing states in the country, Nevada has experienced a WIC participation growth of 32 percent from FFY07 to FFY11. Further, food funding for the WIC program for the same period has increased 30 percent, from a total of \$31,913,823 in FFY07 to \$45,586,200 in FFY11.

The WIC program has completed its initiative through a contract with JP Morgan for the automation of the issuance of all WIC Benefits using Electronic Benefits Transfer (EBT). All participants can now use their new EBT card at any of WIC's 220 authorized grocery stores.

Website: http://health.nv.gov/WIC.htm

6.10 HIV Prevention Program

Program:

The Human Immunodeficiency Virus (HIV) Prevention Program facilitates a process of community-based HIV prevention planning. At present, the Health Division funds Southern Nevada Health District (SNHD) and Washoe County Health District, who act as fiscal agents and provide funding to local community-based organizations through the Request For Proposal process. This program also funds Carson City Health and Human Services (CCHHS) to do HIV testing in the Carson City jurisdiction, and provides HIV test kits to the Community Health Nursing Program to support HIV testing in the rural areas of the state. The Health Division also provides funding for HIV testing, social marketing campaigns, information and condom distribution, partner counseling and referral services, program evaluation and data collection.

Eligibility:

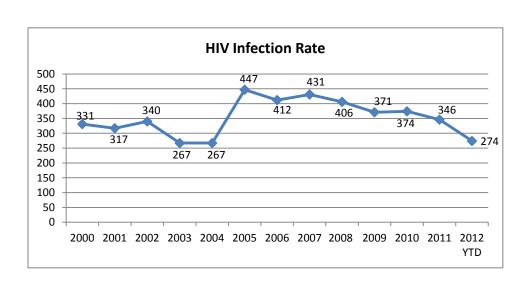

There are no eligibility requirements. It is our mandate to reduce HIV infections in Nevada, and this is accomplished by providing services to everyone. Some community based programs do require that participants meet criteria as outlined in the curriculum, i.e. target population or risk factors.

Other:

Please note that the HIV Prevention Program is funded on a calendar year basis and therefore, data and expenditures for this report are reported on the calendar year, not fiscal year. The HIV Prevention Program does not track applications for services; therefore there is no data available.

Workload History:

Calendar Year	Total Cases	Total Funding
2007	431	\$2,823,112
2008	406	\$2,713,662
2009	371	\$2,713,662
2010	374	\$2,713,662
2011	346	\$2,713,662
2012 YTD	274	\$2,457,325

6.11 Immunization

Program:

The overall goal of the Immunization Program is to decrease vaccine-preventable disease morbidity through improved immunization rates among children, adolescents and adults in Nevada. The Program collaborates with public and private vaccine providers, schools, immunization coalitions and other stakeholders to improve immunization practices by enrolling providers into the Vaccines For Children (VFC) Program and educating providers how to record vaccination data in the Statewide Immunization Registry (Nevada WebIZ).

Vaccines for Children Program:

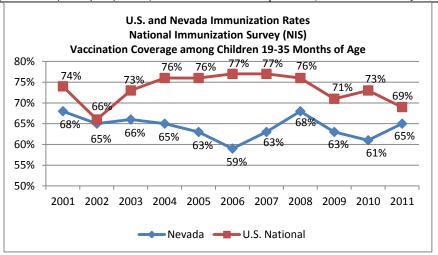

Any physician, healthcare organization or medical practice licensed by the State of Nevada to prescribe and administer vaccines may enroll as participants in the VFC Program. The Program provides federally funded vaccines at no cost to these participants, who, in turn, administer them to eligible children. Eligible children are NV Checkup enrolled, Medicaid eligible, American Indian/Alaska native, uninsured or underinsured, and are not charged for the vaccine.

Nevada WebIZ:

Any physician, health care organization or medical practice that administers vaccines and any organization with a need to verify immunization coverage may enroll as users of Nevada WebIZ (immunization registry). Vaccination data collected in the registry can be used to identify those at risk in the event of a disease outbreak or other emergency and to locate communities with low vaccine coverage rates to target interventions. On July 1, 2009 Nevada Revised Statute 439.265 (and corresponding regulations) went into effect, requiring all persons vaccinating children in Nevada to enter certain data about the vaccination event into the Registry. On January 28, 2010 the NRS corresponding regulation was updated requiring all persons vaccinating adults in Nevada to also record specific information into the Registry.

Program Participation:

	Vaccines for Children Participation Status	Nevada WebIZ Participation Status (by physical location)		
Clark 149		1,299		
Washoe	48	437		
Carson/Rural	82	315		
Note:	272 "Active" providers (currently receiving vaccine	100 percent of Vaccines for Children participants are		
	supply) and 7 "Temp Leave" providers (vaccine	enrolled to enter their immunization data in Nevada		
	shipments temporarily suspended)	WebIZ. (All WebIZ data as of 10/16/12.)		

Comments:

- In 2001, the immunization series for children 19 35 months of age was 4:3:1:3:3 (4 doses of DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hep B)
- From 2002 2006, the immunization series was 4:3:1:3:3:1 (4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hep B, 1 Varicella)
- From 2007 2010, the immunization series was 4:3:1:0:3:1:4 (4 DTaP, 3 Polio, 1 MMR, 0 Hib, 3 Hep B, 1 Varicella, 4 Pneumococcal). Due to a national shortage in Hib vaccine, Hib vaccine data was not assessed in Nevada's rates during these years.
- In 2009, Nevada became a Vaccines for Children (VFC) only state. This means that only federal funds are now used to vaccinate VFC eligible children. Prior to 2009, state and federal funding had been received to vaccinate all children regardless of insurance status.
- Starting in 2011, the immunization series is 4:3:1:3:3:1:4 (4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hep B, 1 Varicella, 4 Pneumococcal). The Hib shortage is no longer affecting Nevada children.

Website:

http://health.nv.gov/Immunization.htm

6.12 Medical Marijuana Registry

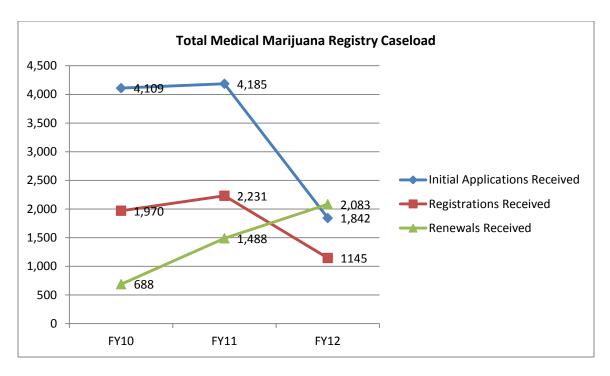

Program:

The Nevada Marijuana Health Registry is a state registry program within the Nevada Department of Health and Human Services, Nevada State Health Division. The role of the program is to administer the provisions of the Medical Use of Marijuana law as approved by the Nevada Legislature and adopted in 2001.

Authority:

Individuals can apply for the registry and, if found eligible, are approved for issue of an identification card to show approval, within limitations, for the cultivation and use of the Cannabis plant for personal use. Eligibility is determined through physician certification of a qualifying medical condition, acceptable criminal background check, and Nevada residency. (NRS 453A)

Year	Initial Applications Received*	Registrations Received**	Renewals Received***
FY10	4,109	1,970	688
FY11	4,185	2,231	1,488
FY12	1,842	1,145	2,083
FY13 YTD	526	435	617

Note: The reported data starts in FY10 as no reliable data for FY09 was available.

Definitions:

Initial applications: Patient submits a request for an application with the required \$50.00 fee.

Registrations: Patient submits completed application including attending physician statement and \$150.00 application fee. Renewals: Patients that are registered are required to renew their enrollment each year and pay a \$150.00 renewal fee.

Website: http://health.nv.gov/medicalmarijuana.htm

6.13 HIV-AIDS Surveillance Program

Program:

The mission of the HIV-AIDS Surveillance Program is to work with the local health authorities and the medical community to prevent and control the transmission of Human Immunodeficiency Virus (HIV) and the development of an annual integrated HIV/AIDS epidemiological profile; the dissemination of HIV/AIDS data to HIV community planning groups and other agencies and the public to help target HIV prevention activities; and training and technical assistance to local health authorities and community-based organizations that assist in HIV/AIDS surveillance activities. The Program's functions are achieved through collaborative relationships with public and community-based organizations, local health authorities, clinical laboratories, community members, and other key stakeholders.

Eligibility:

There are no eligibility requirements. The State HIV/AIDS Program tracks all new HIV/AIDS cases reported and persons living with HIV/AIDS including cases from other states and jurisdictions who move to Nevada. Incidence (new cases) and prevalence (old and new cases) are reported separately. Statutory authority – NRS 441A and NRS 439.

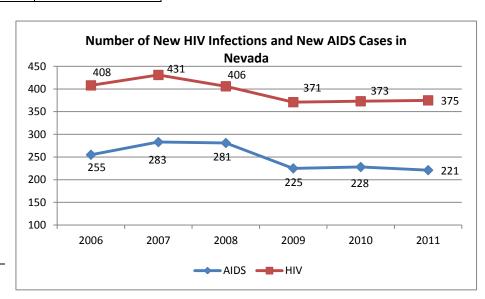

Other:

Primary workload indicators for federal funding include the number of new HIV and AIDS cases reported annually and the number of persons living with HIV/AIDS in Nevada (prevalence data). Demographic information of HIV/AIDS cases (county, sex, race/ethnicity, age, exposure category) is reported to track disease trends and to provide information to community planning groups to better allocate local resources and to target HIV/AIDS prevention activities.

Workload History:

Calendar Year	Average HIV Caseload	Average AIDS Caseload
2011	31	18
2012 YTD	27	17

Comment:

Though it is difficult to accurately identify the reasons for a decrease in reported HIV/AIDS it is likely a result of: 1. Reporting delays (an increase in reported cases will likely occur as time progresses), 2. Intra-state deduplication of reported HIV/AIDS cases (in December 2008, Nevada moved to a new HIV/AIDS database - eHARS - which has allowed the state and local jurisdictions to immediately fix intra-state duplicate case reports), and 3. Inter-state de-duplication (the CDC provides each state with potential duplicate case reports between states and each must fix that duplication, this may result in decreased cases in Nevada).

6.14 Nevada Central Cancer Registry

Program:

The primary purpose of the Statewide Cancer Registry is to collect and maintain a record of reportable cases of cancer occurring in the state. The data is used to evaluate the appropriateness of measures for the prevention and control of cancer and to conduct comprehensive epidemiological surveys of cancer and cancer related deaths. Statutory Authority: NRS 457.

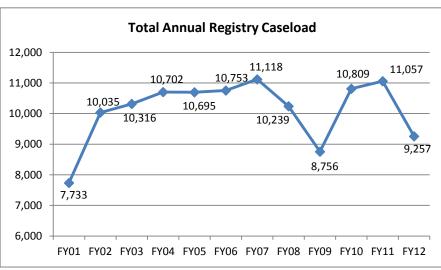

Eligibility:

This is a population-based Registry collecting data for all cancer cases diagnosed in Nevada.

Other:

The figures in this report reflect actual cancer incidence data submitted annually to the Centers for Disease Control and Prevention/National Program of Cancer Registries. Cases collected and reported include all in-situ and invasive cancer, with the exception of in-situ cervix, noninvasive basal cell and squamous cell carcinomas of the skin.

FY13 Total*	2,688
FY13 Average	896

^{*}Total only includes cases from hospitals that are billed. Does not include cases received from outpatient facilities, the Veterans Administration, or the Department of Defense.

Comments:

The NCCR met and exceeded all of the CDC/National Program of Cancer Registries (NPCR) and North American Association of Central Cancer Registries (NAACCR) standards by achieving and maintaining a minimum of 95 percent complete case ascertainment annually through FY12 (with the exception of FY09). The Registry has received the Gold Standard certification from NAACCR for nine of the past ten consecutive reporting years. Based on the quality and complete data, the NCCR data is included in the United States Cancer Statistics (USCS) and Caner in North America (CINA).

http://health.nv.gov

6.15 Vital Records and Statistics

Program:

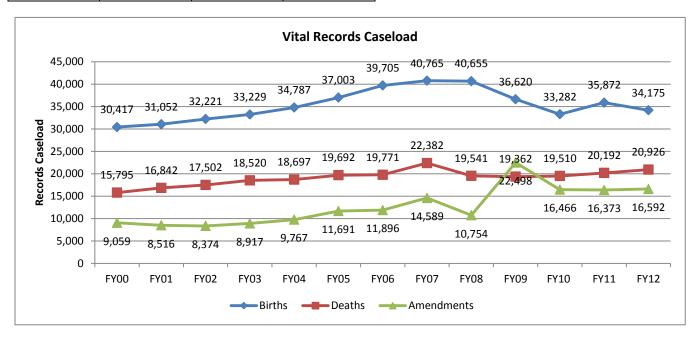

The Office of Vital Records and Statistics administers the statewide system of Vital Records by documenting and certifying the facts of births, deaths and family formation for the legal purposes of the citizens of Nevada, participates in the national vital statistics systems and responds to the needs of health programs, health care providers, businesses, researchers, educational institutions and the Nevada public for data and statistical information. The Office of Vital Records also amends registered records with required documentation such as court orders, affidavits, declarations and reports of adoptions per NRS and NAC 440. Amendments include corrections, alterations, adoptions and paternities.

Authority:

Any person or organization that can provide personal or legal relationship or need for birth, death or statistical data is eligible for services. NRS 440

Caseload:

Fiscal Year	Fiscal Year Births		scal Year Births Deaths		Amendments
FY 11	35,872	20,192	16,373		
FY 12	34,175	20,926	16,592		
FY 13 YTD	9,238	5,119	4,040		

Comments:

Current processing times for the Office of Vital Records:

- Birth registration avg. 15 days
- Death Registration avg. 6 days

Note: Amendment counts include hospital paternities.

7.01 Mental Health Services

Program:

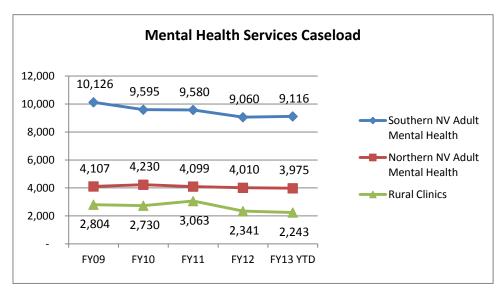

Key programs at both Southern and Northern Nevada Adult Mental Health Services includes: Inpatient Services, Observation Unit, Outpatient Counseling, Service Coordination, Medication Clinic, Psychosocial Rehabilitation, Residential Programs, Psychiatric Emergency Services, Mental Health Court, Senior Outreach, Mobile Crisis, Programs for Assertive Community Treatment (PACT), Outpatient Co-Occurring Treatment and Consumer Programs. Rural Clinics Provides most of the same services, not including Inpatient or Observation services. Rural Clinics services are available in most counties throughout Nevada.

Eligibility:

Inpatient services are primarily offered to stabilize individuals who are acutely ill and are a danger to self and or others per NRS. Consumers with Severe Mental Illness (SMI) are given priority for Outpatient services by all three mental health agencies. All agencies serve primarily indigent clients. All clients are required to provide financial information to establish eligibility. Clients may be required to pay a portion of the cost of their services based upon income

FYTD:

Comments:

Despite the reduction in resources, the number of people receiving services has been maintained by reorganizing some processes to increase efficiency. This report indicates the unduplicated count of individuals served by the agency. Some individuals receive multiple services, however they would be counted only once.

7.02 Developmental Services

Program:

Developmental Services provides a full array of community based services for people with developmental disabilities and related conditions and their families in Nevada. The goal of coordinated services is to assist persons in achieving maximum independence and self-direction. Service coordinators assist individuals and families in developing a person centered life plan focused on individual needs and preferences for the future. They also assist people in selecting and obtaining services and funding to achieve personal goals, community integration and independence.

Eligibility:

All individuals who meet Developmental Services eligibility requirements of mental retardation diagnosis or related conditions and three of six major life skill limitations who apply for services receive basic service coordination. Developmental Services agencies provide many services to Medicaid eligible clients. Provider based services are given under a Medicaid waiver depending on the level of care the individual needs. Direct services are provided under the Medicaid State Plan.

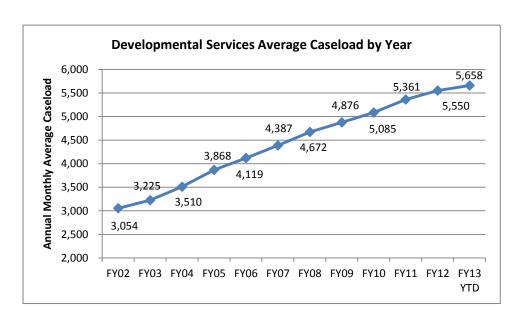

Workload History:

7.03 Lake's Crossing Center (LCC)

Program:

Lake's Crossing Center (LCC) is the only forensic mental health facility serving clients in the state of Nevada. The program provides treatment for severe mental illness and other disabling conditions that interfere with a person's ability to proceed with their adjudication or return to the community after having been found not guilty by reason of insanity/incompetent without probability of attaining competence. The program provides a broad spectrum of treatment interventions.

Eligibility:

Clients are admitted to the inpatient program primarily by court order after a pre-commitment examiner has found them incompetent to stand trial and recommended treatment to competency. Clients may be charged with any crime from a misdemeanor to class A felony, but generally only violent offenders or those who cannot be treated outpatient are ordered to the program. The program also treats clients who are acquitted NGRI or serious offenders whose charges have been dropped because they are incompetent. Occasionally a client without charges is administratively transferred to this program because they cannot be treated elsewhere.

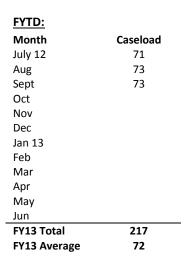

Other:

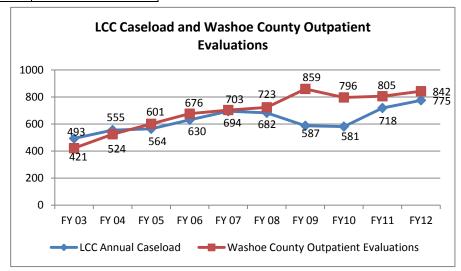

Clients may only be discharged from the program by court order or, in the case of administratively transferred clients, the Administrator of the Division of Mental Health. LCC completes a significant amount of outpatient evaluations each year in addition to its inpatient treatment and evaluation commitments. There are also an increasing number of clients ordered for outpatient treatment to competency from Washoe County.

Workload History:

Fiscal Year	Annual Caseload	Outpatient Evaluations
FY11	718	805
FY12	775	842

Note: Annual caseload count is cumulative.

Comments:

While Lake's Crossing has experienced a decline in the number defined here as "caseload," they have in fact had a significant increase in individuals served. In FY08 the total number of individuals sent to LCC was 144, in FY09 this was up to 214, or a 49% increase. The decline in the caseload number is primarily related to LCC reducing the average length of time individuals remain in the facility. In FY05 the average length of stay was about 140, in FY09 that had been reduced to 86 days, a 39% decline. In FY10, Lake's Crossing served received 202 people on commitments, and the average length of stay was reduced to 76 days.

The number of outpatient evaluations is impacted by an interlocal agreement with Washoe County. This number had been exceeded in the past creating budget difficulties for the County. LCC worked with Washoe County during FY 10 to keep the number within the budget, 712 evaluations were completed for Washoe County. This agreement continues in FY 11 at a flat rate of 747 available evaluations. LCC also completed approximately 55 evaluations for rural counties in FY10.

Website: http://mhds.nv.gov/index.php?option=com contentandview=articleandid=30andItemid=56

7.04 Substance Abuse Prevention and Treatment Agency (SAPTA)

Program:

The Substance Abuse Prevention and Treatment Agency (SAPTA) provides funding via a competitive process to non-profit and governmental organizations throughout Nevada. It does not provide direct substance abuse prevention or treatment services. The Agency plans and coordinates statewide substance abuse service delivery and provides technical assistance to programs and other state agencies to ensure that resources are used in a manner which best serves the citizens of Nevada.

Eligibility:

All funded programs must not discriminate based on ability to pay, race/ethnicity, gender or disability. Additionally, programs are required to provide services utilizing a sliding fee scale that must meet minimum standards.

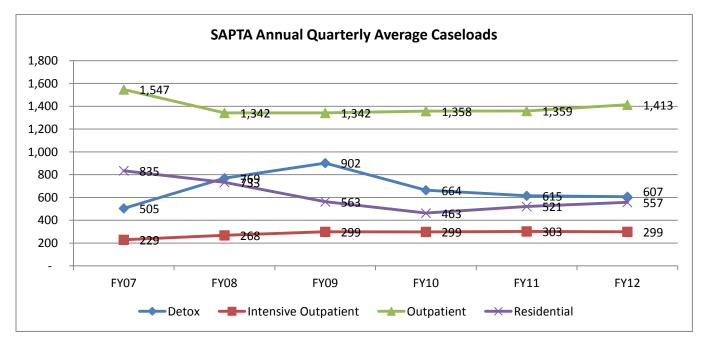

Other:

SAPTA is the designated Single State Agency for the purpose of applying for and expending the federal Substance Abuse Prevention and Treatment Block Grant (SAPTBG) issued through the Substance Abuse and Mental Health Services Administration (SAMHSA).

Treatment History:

	FY07	FY08	FY09	FY10	FY11	FY12 YTD
Admissions	12,618	12,444	13,378	11,131	11,190	11,503
Total	\$14,940,114	\$15,860,000	\$17,410,000	\$16,222,000	\$17,282,217	\$16,948,678
Expenditures						

The expenditures include payments to providers for the following services: Treatment (adult and adolescent), HIV, TB, Women's Set-Aside, Co-occurring, and Liquor Tax.

Comments:

Detoxification admissions peaked in FY09 due primarily to a service provider who reported triage services and detoxification services interchangeably. Technical assistance was afforded to the provider after the problem was identified. As a result, detoxification admission and total admission numbers appear to have declined significantly, despite efforts to clean the data.

Nevada Department of Health and Human Services, Public Defender

8.01 Public Defender

Program: Representation of indigent persons charged with a criminal offense in a participating county.

<u>Eligibility:</u> The court determines eligibility considering income, expenses, personal property, and outstanding

debt. The potential client must be at risk of receiving a sentence of confinement. If the defendant does not have the liquid assets to retain private counsel for the specific type of case, the court will consider appointing the public defender. The defendant may be required to reimburse the county for the

services of the public defender.

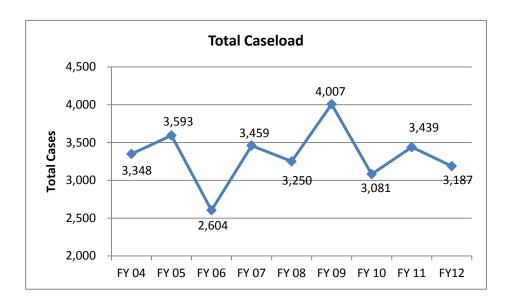

Workload History:

Fiscal Year	Cases
FY07	3,459
FY08	3,259
FY09	4,007
FY10	3,081
FY11	3,439
FY12	3,187

Caseload Fiscal Year 12:

93
14
331
92
50
2,607

Total FY 12 3,187

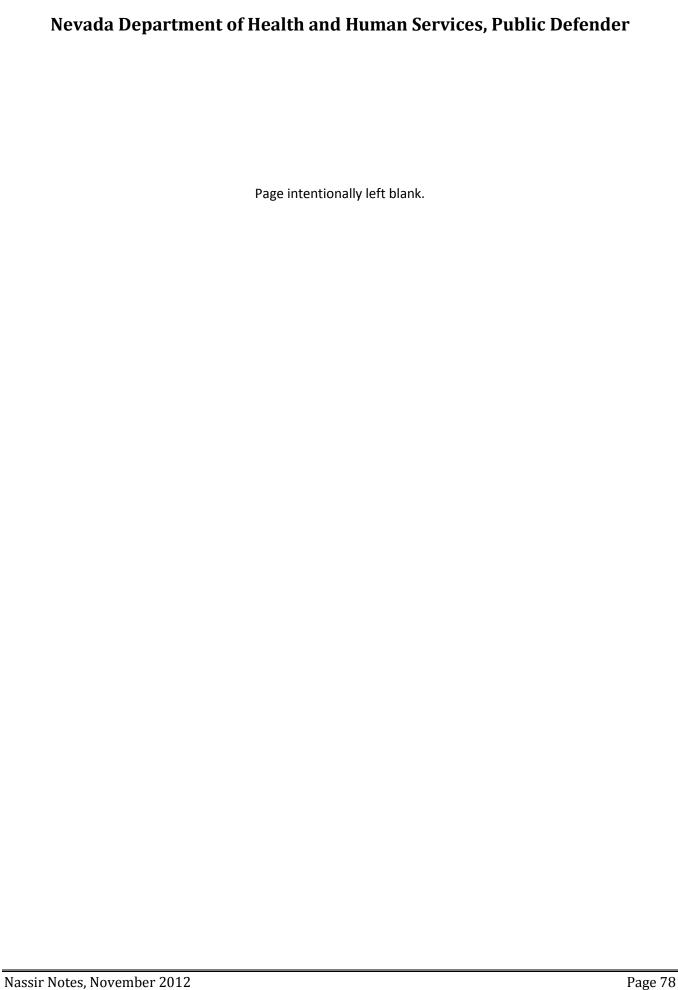

FY13 Q1 = 820 cases

Comments: The trend in FY11 shows an increase in arrests and prosecutions in the 5 rural counties serviced by the

State Public Defender. FY12 does not include Lincoln County, which withdrew from the State Public Defender system. Also, beginning in FY12 cases are counted as directed by the Supreme Court. This

will result in a lower number of cases.

Website: http://dhhs.nv.gov/PublicDefender.htm

NOTE: The data in this document comes from many sources. For the sake of consistency, a uniform ordinal ranking system has been adopted, with 1 indicating the best ranking and 50 indicating the worst. Where relevant, the final column of each table contains an icon to indicate how the ranking has changed from the previous year: improvement ($^{\blacktriangle}$), worsening ($^{\blacktriangledown}$), or no change (=).

Population/Demographics

- Nevada's July 1, 2011 estimated population is 2,723,322. (U.S. Census, American Community Survey)
 - o By Gender: Males 50.4 percent, Females 49.6 percent. (U.S. Census, American Community Survey)
 - By County: Clark 72 percent, Washoe 15 percent, Carson City 2 percent, and Balance-of-State 11 percent. (Nevada State Demographer, Estimates by County)
- **Population growth** From 2010 to 2011 Nevada is the 25th fastest growing state. From 2010 to 2011 it was the 27th fastest growing state. It had been among the top four fastest growing states for each year from 1984-2007. (U.S. Census)
- Age distribution Nevada's population distribution varies slightly compared to the U.S. average. (U.S. Census)

Economy

- In 2011, Nevada's **personal income per capita** was \$36,964, ranking 30th among states. The per capita income for the U.S. as a whole was \$41,560. The U.S. average is 9% higher than Nevada. From 2003 thru 2007 Nevada's **personal income per capita** exceeded the U.S. average due to our outsized housing boom. (U.S. Bureau of Economic Analysis)
- The Kaiser Family Foundation measures **state economic distress** by taking into account the number of foreclosures, the change in the unemployment rate, and the change in the number of people receiving food stamps. Nevada's current ranking is 23rd due to positive changes in the foreclosure rate and the decrease in food stamp growth. Nevada is now 45th in foreclosure rate (sixth highest) after leading the nation for many years. Nevada ranked 1st in the largest drop in unemployment rate among all 50 states. Even though Nevada ranked high in the **unemployment rate change**, Nevada still has the highest **unemployment rate level** in the country (Kaiser Family Foundation, State Health Facts)
- In July 2012, Nevada's **foreclosure rate** was ranked 45th (the 6th highest of all states), with 1 of every 415 homes currently under foreclosure. California was highest with 1 of every 325 homes in foreclosure followed by Arizona with 1 in every 346 homes in foreclosure. The U.S. average was 1 of every 686 homes. (*RealtyTrac*)

• Nevada's 6 month average **unemployment rate** is the highest in the nation. (U.S. Bureau of Labor Statistics)

Funding

• Nevada's **state and local tax burden per capita** is lower than the national average. Nevada's state and local tax rate (state and local tax burden per capita divided by income per capita) is one of the lowest in the nation. (*Tax Foundation, State/Local Tax Burdens, All States*)

Total State an Capita Tax		2001	2002	2003	2004	2005	2006	2007	2008	2009	
	\$ per capita	\$2,519	\$2,554	\$2,724	\$3,067	\$3,331	\$3,581	\$3,606	\$3,606	\$3,311	
Nevada	Tax Rate	6.9%	7.3%	7.6%	7.7%	7.4%	7.5%	7.4%	7.5%	7.5%	
	Rank	3	5	5	7	4	6	4	4	2	•
United States	\$ per capita	\$3,200	\$3,156	\$3,254	\$3,466	\$3,734	\$4,018	\$4,270	\$4,384	\$4,160	
Officed States	Tax Rate	9.4%	9.5%	9.6%	9.6%	9.6%	9.7%	9.8%	9.9%	9.8%	

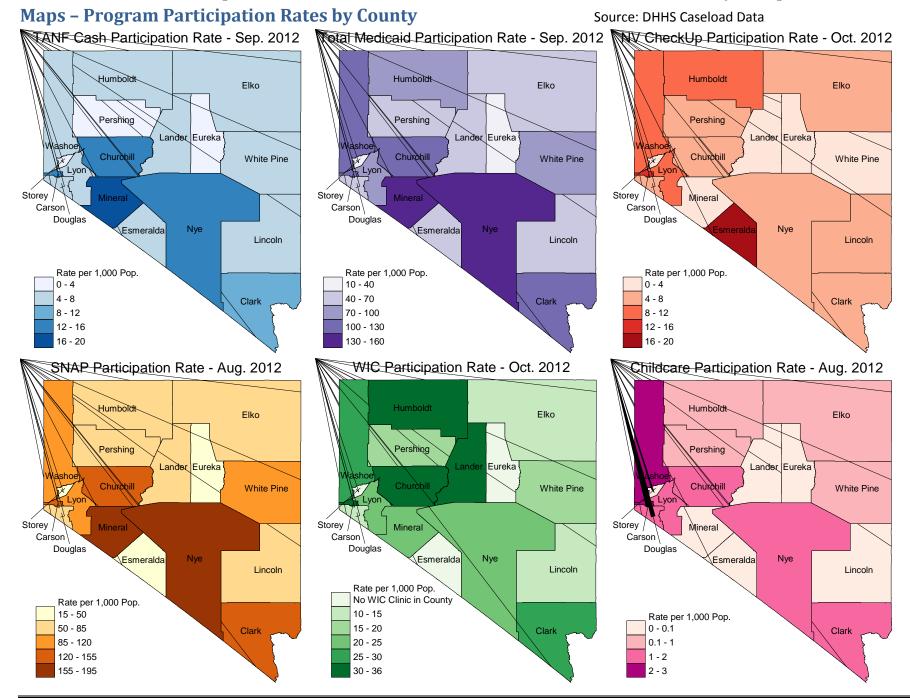

- Note that a rank of one indicates that state has the lowest tax burden.
- Nevada's **state government tax collections** per capita generally run about equal to the average of all other states. (Nevada along with Texas, Washington and Wyoming don't have individual or corporate net income taxes. Alaska, Florida and South Dakota have only corporate net income taxes, but not individual income taxes. All other states have both taxes.) (*U.S. Census, American Community Survey*)

State Governors Collections	rnment Tax Per Capita	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	
Nove de	Per Capita	\$1,820	\$1,842	\$1,953	\$2,348	\$2,466	\$2,458	\$2,365	\$2,123	\$2,158	\$2,325	
Nevada	Rank	29	26	26	32	30	26	21	17	24	25	•
